

SOCIALISM IS FAILURE IN RUSSIA

By William G. Shepherd, United Press Staff Correspondent.

MOSCOW, Aug. 17.—Socialism has failed in Russia. Premier Kerensky has recognized the fact and the great conference here on August 23 will mark the end of Pan-socialistic rule of Russia and the entrance of new elements of conservatism in commerce and finance.

Socialists themselves—and Kerensky is one—realize that they failed in their attempt to govern single-handed. This was partly because the cities of Russia are socialistic and the country conservative and also because the peasants refused to sell food to the cities, declaring money was of no use to them because of the high prices in the cities.

ATTEMPT TO GOVERN BEHIND SCENES

In addition the Socialists in the cities are involved in continual quarrels among themselves. This resulted in the July troubles and killings in Petrograd. In addition there was too much of an attempt to govern behind the scenes without assuming responsibility by having a majority of Socialists in the government.

Fears of a return to monarchy in Russia are nonsense, all agree here today. A republic is inevitable, although rumors of monarchial plots persist and resulted in the removal of the Romanoffs to Siberia.

KERENSKY SHOWS GOOD JUDGMENT

With this state of affairs Kerensky's recognition of the failure of Russian socialism is regarded as having firmly established his greatness. The mind of an observer of Russian affairs has failed to realize that the sort of socialism that some hope and others fear, may rule the world some day, must be different.

Socialists themselves are disillusioned. I have heard a score of American Socialists say that to meet with such a socialistic rule brought up to date and made more practical.

BERLIN STRIKES

COPENHAGEN, Aug. 17.—A renewal of strike agitation in war industries, evidently on the part of extreme Socialists, as reported from Berlin, has been met by a notice that circulars are being distributed in munition factories advocating a walk-out.

The notice appeals to the workmen not to be misled and not to betray their brothers fighting in the east and west.

PLANES MAKE RAID

LONDON, Aug. 17.—The admiralty announces the successful carrying out yesterday of a series of raids by aviators of the royal naval air service, who dropped many tons of bombs on military objectives in Belgium. Two wireless station and airfields and the railway junction were attacked. The airfield at Gistel was bombed and several fires were observed. Attacks from the air were made on the airfield at Engelm and Urtkerke. All the airplanes returned safely.

COSTS TWO CENTS

PORTLAND, Ore., Aug. 17.—It cost George Menseil 2 cents to bring out for mayor of Portland, according to his expense account filed today under the corrupt practices act. The money was spent for a postage stamp.

ARMY, NAVY PLANS HASTENED BY CABINET

Important Moves, Many Secret, Take Place at Important Conference

BY INTERNATIONAL NEWS SERVICE LEASED WIRE TO TRIBUNE

WASHINGTON, Aug. 17.—While President Wilson and his cabinet carefully digested Pope Benedict's peace suggestions the machinery of the army and the navy was advanced to topnotch speed today. If Germany has looked with apprehension on the war preparations of the United States—as officials say is known despite the public efforts of her high commands to belittle it in public statements—that feeling must be strengthened by the developments of the last few hours.

Among the real war moves that have taken place it is possible to make public only a very few. Others must remain shrouded in secrecy until they actually are in effect.

Those which may be told the public include:

Approval by the President of certain plans which will make the navy a more efficient factor in the war and especially in combating the German submarine menace.

Assignment by the President and secretary of war of the best brains in the army—including all ranking major generals and those just promoted to active with the field grade. This means that the National Guard will be ready for France long before snow flies and that the new national army, first increment, can take its place in the reserve camps of France before the spring drive comes of the war goes on.

Sharp curbing of the I. W. W. and

all pro-German agitators who have planned to interfere with the manufacture of munitions and war supplies, including the lumber for the great war aerial fleet, and the announcement by the department of justice that espionage laws are to be enforced as drafted.

There are many additional moves which are of the utmost importance. They, however, will be revealed from time to time in the cable despatches from the battle front.

The complete organization of the national army and the National Guard cantonnements is a most vital move. The command and control of their staffs will get on the job immediately. The army must soon be felt. The announcement that organizations will be along the lines suggested by General Pershing following his observations in France with the company unit of 250 men commanded by the various arms of the army and three second lieutenants, shows that right from the start the men are to be trained in all of the wrinkles of trench warfare. It also means that the original plan of calling up the various increments of 300,000 drafted men in regular order as fast as places can be made for them in the camps is to be rigidly adhered to.

The second call will come as soon as the National Guard is ready to start across the ocean and as National Guard units depart their places will be filled by men of the "second five hundred thousand."

BERKELEY'S NEW TAX RATE FIXED

BERKELEY, Aug. 17.—Berkeley's new tax rate, as approved by City Auditor H. L. Hanson after several weeks of work in calculating the expenses of the various departments of the municipal government, was passed this morning by the city council. Various reductions, bond exemptions and other special provisions are included in the figures. On the whole, the city's tax rate seems a considerable reduction in the light of the budget in the city before 1906, when the Claremont and Northbrae annexations were made, will see a 2.34 rate. The tax rate in the Claremont region, annexed later, is set at \$1.37, and in Northbrae the rate is \$1.22. The Northbrae district was not annexed until 1910, therefore being exempt from the 1906 and 1908 bond issues. The general fund tax is set at 98 cents, the library fund tax at 6 cents, school fund 12 cents, bonds for 1908 4 cents, bonds for 1910 1 cent, bonds for 1913 9 cents and bonds for 1915 8 cents.

NOT PERSHING MEN

LONDON, Aug. 17.—No wounded Americans from the Pershing expedition landed in England yesterday. Some Americans arriving were members of British organizations. The United Press interviewed wounded American members of such organizations arriving yesterday and said they have been arriving frequently since that time.

MEXICAN STRIKE

MEXICO CITY, Aug. 17.—It is reported the railroad men are considering a walkout if the management continues to send locomotives to the United States for repairs instead of making them in the interior shops. The shopmen have addressed a petition to President Carranza asking that the workday be returned to eight hours. They are now working six.

FEAR OUTBREAKS IN CAR STRIKE

CHICAGO, Aug. 17.—His first attempt to end the war having failed, President Wilson declared he would not again offer peace proposals until requested to do so by one of the belligerents, according to Herman H. Kohlsaat, a former Chicago publisher, who related today a conversation with Dr. Francisco de la Barra, former Mexican ambassador to the United States.

While en route from Europe in February, 1916, Dr. de la Barra told Kohlsaat he had called on the Pope and broached the subject of peace.

"The Pope, according to the Mexican, said he had suggested one or two peace moves, but had been treated coolly by the belligerents and that he was through offering suggestions, finally declaring that he would not again mention peace unless he was requested to do so by one of the belligerents."

TOKYO, Aug. 17.—Japan has joined the United States, England, France and Italy in refusing passports to persons desiring to attend the international Socialist peace conference in Stockholm next month. It was announced today that the government would not again mention peace unless he was requested to do so by one of the belligerents.

CHINA TO INTERNE

ALIEN ENEMIES

PEKING, Tuesday, Aug. 14 (delayed).—China's declaration of war on Germany and Austria Hungary, beginning at 10 a. m. today, and the other documents relating to the war, do not mention the association of the Chinese Republic with the entente powers. They indicate that China's action will be entirely independent.

The declaration of war aroused little excitement in Peking, of its other little China cities, the long discussion of the question having discounted its effect.

The Netherlands minister to China today took over the Austrian interests, and received the arms of the Austrian guards. The doors of the Deutsche Asiatische Bank have been sealed.

Chinese troops at Tien-Tsin took over the Austrian concession, and the German bank and German barracks.

Regulations issued today by the Chinese government permit the departure of Germans and Austrians within five days. Registration within ten days is required to permit Germans to continue doing business if it does not affect China's welfare. Foreign subjects are forbidden to travel without permits. The regulations also provide for the internment of troublesome enemies.

RUSSIANS RALLY

PETROGRAD, Aug. 17.—Lieutenant General Korniloff, the commander-in-chief, who arrived here today for a conference with Premier Kerensky, in an interview today said that in consequence of the energetic measures taken by the moral fighting capacity of the army had been considerably strengthened. He hoped for complete regeneration of the Russian forces.

The general predicted operations on a vast scale on the Rumanian front and also elsewhere, especially in the north where he indicated there was a possibility of combined land and sea actions. He expressed the opinion that another winter campaign was inevitable.

GAS IS LIMITED

COPENHAGEN, Aug. 17.—New gas regulations have been issued in Berlin which virtually put the ordinary consumers of gas on half rations from now on. The new orders are made necessary because of the inability of the gas works to obtain a supply of coal. Similar measures are impending throughout the empire.

The announcement of the new orders unleashed a general storm of indignation. The Berlin newspapers demand to know how home life will be possible with the household supply of coal reduced so greatly.

Local Situation

Waits Appointment

With a third member for the arbitration board still being sought, the settlement of a satisfactory wage schedule between the Francisco-Oakland Terminal Railway and the Carmen's Union is awaiting the formation of the neutral tribunal. Several of the men who were considered desirable by both sides as members of the board have been unable to serve for various reasons, and the third position of the committee is still vacant.

"There is no 'deadlock' in this selection of a third member of the arbitration board," said General Manager W. R. Aberger this morning. "It has been simply a case of inability to serve on the part of several persons who were selected. The third arbitrator will soon be named. In the meantime the relations between the men and the company remain most amicable and satisfactory."

INSURES SAILORS

WASHINGTON, Aug. 17.—Since the war risk insurance bureau was authorized, on June 26, to insure merchant crews, it has written 5446 policies, totaling \$9,225,869. Premiums paid in have amounted to \$7,244, and the only claims to date have been on account of twenty-two men lost on the Kansas, Motano and Campana, totaling \$27,980.

"DRY" BILL READ

VICTORIA, B. C., Aug. 17.—The prohibition bill has passed its second reading in the British Columbia parliament. This virtually assures final passage of the measure, which will make this province the first to adopt prohibition here Quebec will be the only province in the dominion to retain its saloons.

WILSON DISCUSSES POPE'S PEACE PLEA

(Continued From Page 1)

liberate a few more days before making an announcement of his position. The world looks to Wilson's decision as the real decision of the whole situation. The allies now dependent on the United States for physical and financial aid, are virtually compelled to follow his lead. Conferences with the allied governments have been going on for several days.

Persons who have talked with Secretary Lansing the past few days have been refused definite announcement of policy, but there has been no mistaking his general indisposition to hearken to the Pope now. The paramount element of the situation, however, is the fact that the world will listen earnestly to the Pope's plea and that doubtless this will prove the heaven working for an earlier peace than might have come had the Pontiff not spoken.

The White House was deluged today with letters and telegrams dealing with Pope Benedict's peace proposals. It was explained by the officials in charge that they would not be made public at this time.

Sentiments expressed, it was stated, were about evenly divided between characterizing the suggestion as the start across the war and as a German plot. The trend of the messages was conveyed to President Wilson for his information.

WOULD WAIT TILL ASKED BY BELLIGERENTS

CHICAGO, Aug. 17.—His first attempt to end the war having failed, President Wilson declared he would not again offer peace proposals until requested to do so by one of the belligerents, according to Herman H. Kohlsaat, a former Chicago publisher, who related today a conversation with Dr. Francisco de la Barra, former Mexican ambassador to the United States.

While en route from Europe in February, 1916, Dr. de la Barra told Kohlsaat he had called on the Pope and broached the subject of peace. "The Pope, according to the Mexican, said he had suggested one or two peace moves, but had been treated coolly by the belligerents and that he was through offering suggestions, finally declaring that he would not again mention peace unless he was requested to do so by one of the belligerents."

AID PLEDGED TO GUARD FORGOTTEN

(Continued From Page 1)

to handle those rifles if they had not received previous instruction?

A.—Most anybody can shoot a gun. Q.—I have been informed that the State Army in Oakland is to be turned over to me as senior captain for a headquarters for the Home Guard. Is that so?

A.—No. The State will close and lock up all armories at the earliest possible moment.

DRILL IN STREETS; BUY OWN UNIFORMS

Q.—Where, then, is the guard to go for a meeting place or drill hall?

A.—In the streets; unless the members see fit to rent some place for themselves and pay for it out of their own pockets.

Q.—How are the guards to be uniformed?

A.—Entirely at their own expense so far as the State is concerned.

Q.—What sort of uniform is to be worn?

A.—Anything that does not in any way or part look like an army uniform. Preferably some sort of blue cotton.

Captain Pimm, after reading the interview with Boree, recounted the experiences he had had with city officials. He told of a visit he paid to Mayor Davis, who was very enthusiastic in his manner and promised every help in his power. When asked about uniforms, he said that he would have Chief Petersen insert an item for that in his budget. The order was given to Chief Petersen in Captain Pimm's presence.

It afterward developed, said Pimm, that Petersen had never inserted the item in his budget, had never even attempted to find if it could legally be done, as he repeatedly claimed to be doing.

The business men of Oakland came in for no little criticism for their failure to support the guard, as it was felt that it was for the future protection of the interests of the business men and manufacturers that the organization was formed.

TO DISBAND IF AID IS AGAIN REFUSED

"They do not even know that we are drilling here," said one irate member. "I venture to say that not one business man in twenty in the city of Oakland knows that there is such a thing as a Home Guard. If they ever knew they have promptly forgotten the matter."

At the open meeting which followed the formal dismissal for the evening of the military formation, feeling toward the head of the State's military department ran high and resolutions were offered condemning the head of that department.

Cooler heads prevailed in the end, however, and it was decided that a committee of five should be appointed to make another attempt to obtain aid for the organization and that a meeting, possibly the final one, will be held in the armory next Thursday evening, and if the prospects of the Guard are no brighter then, steps to disband the guard will be immediately taken.

MAJOR-GENERALS NAMED BY WILSON

WASHINGTON, Aug. 17.—Thirty-two major generals assigned to command divisions of the new army and national guard today received instructions to report for duty not later than August 25. All the regular departmental commanders are now called upon for duty in the field, probably in France. Included in the orders is a statement that the order of designation of the divisions is by no means indicative of the order in which they will be sent to the front. A warning is added that shifts and changes in the officer personnel of the divisions are to be expected.

Under new army regulations each regiment will consist of three battalions of four companies of 250 men each which, supplemented by supply and machine gun organizations, will bring each infantry unit up to a strength of approximately 2600. From the 27,000 officers recently graduated from training camps, a considerable number will be detailed for a course of intensive training in trench warfare with the expeditionary force already in France. In addition some officers probably will be sent to French and British officers' schools to study the methods of the allies.

CITIES NEAR CAMPS WARNED BY BAKER

WASHINGTON, Aug. 17.—Secretary of War Baker has warned the mayors of cities near army training camps or cantonments that they will be held responsible for maintenance of wholesome moral conditions in their communities. If the desired results cannot be obtained in any other way, the secretary said in a letter to the mayors, he will not hesitate to move camps to other sites.

PROBE IS PLANNED.
LONDON, Aug. 17.—The House of Commons has appointed a committee to inquire into the national finances and suggest methods of giving Parliament more effective control over public expenditures.

CASUALTIES OF GERMANS SHOWN IN NEW REPORT

LONDON, Aug. 17.—German casualties reported during July in the German official lists, but not necessarily having occurred in July, amounted to 88,863, as follows:
Killed or died of wounds or sickness 11,183
Prisoners or missing 14,820
Severely wounded 13,996
Wounded and slightly wounded 39,964
The total German casualties of all classes since the beginning of the war exceeds 4,560,000.

best methods of giving Parliament more effective control over public expenditures.

CZAR JEERED ON WAY TO PRISON

PETROGRAD, Aug. 17.—Further details are published concerning the removal of Nicholas Romanoff from the former imperial palace at Tsarskoe-Selo. When the train which was to carry the former emperor arrived it bore prominent placards and contained one armored car and on the platform of each car were four soldiers with fixed bayonets. The former emperor at the last moment, says one newspaper, begged to be allowed to reside in the Crimea, but this was refused. As the train

FRENCH FLYER EXPERT GUEST AT LUNCHEON

Captain Henri Douriss, French aviation expert, sent to Washington, D. C., by his government to impress on the United States the importance of airplanes in the present war, was the guest and speaker of honor before the Athenaeum Club at luncheon today. Captain Douriss spoke on aviation and the work of the French flying corps.

The distinguished aviator is one of the foremost experts in his country. He was one of a commission of three sent by the United States to the state of Washington during the recent I. W. W. troubles to impress upon the lumber interests the necessity of conserving the country's spruce as a necessity in airplane manufacture. He is en route to Washington, D. C., from this trip, at the present time.

While in Oakland Captain Douriss is the guest of Walter Frick, Piedmont millionaire, at his home, 148 Dracena avenue. pulled out the soldiers shouted derisively at the former ruler of Russia. The location of the new prison, remains a mystery, but the impression grows that it will be Siberia. It is said that at the different imperial palaces at Tsarskoe-Selo, Peterhof Gatchina, Livadia and elsewhere there are 25,000 servants, nearly all of whom have lost their means of livelihood through the successes of the revolution.

PLANT ENLARGED

HAYWARD, Aug. 17.—Plans are afoot here to celebrate the opening of three new units of the Pacific Vinegar and Pickle Works on September 1. The buildings were erected at a cost of \$200,000 and the new equipment and enlarged organization will demand an addition to the payroll of 300 men. Practically ready for occupancy, the completed structures will give the factory three times its original manufacturing space. Included in the additions to the plant are a catnip manufactory, a new boiler room and a modern salt house. Pickles, catsup, sauerkraut and similar products will be made for public consumption by the enlarged plant. Construction work for the main part, was done by local contractors and workmen. That civic bodies and Hayward citizens will celebrate on the opening day is the present plan of boosters.

LUMBERMAN IN COURT.
F. C. Talbot, wealthy San Francisco lumberman, testified in his own defense in a suit brought in Superior Judge Everett Brown's court to recover \$600 for a helper which a neighbor of Talbot's claims was killed by one of Talbot's blooded Alder dogs. The case has been in court for some time and was again continued to a later date.

MOB FREES WOMEN HELD BY POLICE

BY ASSOCIATED PRESS
LEAST WIRE TO TRIBUNE

SEATTLE, Aug. 17.—Officials of the Seattle police department were undecided today as to what steps they would take toward the suppression of further talks by Mrs. Kate Sadler, Socialist speaker, who was arrested last night and later released to an angry mob by the arresting officers. Mrs. Sadler had not been located at an early hour and the police were inclined to ask the advice of federal authorities before taking her further.

An executive meeting of the "People's Council," also known as the "Eighth American Conference for Democracy and Terms of Peace," was to be held today. Two small meetings had been held yesterday without police interference and last night's meeting, held in the open air after the management of the Seattle arena canceled the contract upon learning the object of the gathering, was closely watched by police only because of the alleged revolutionary remarks of Mrs. Sadler.

Industrial Workers of the World, who introduced themselves as such when taking the platform, were prominent among the speakers at all of yesterday's meetings, none of which had been publicly announced.

SURRENDERED TO MOB.
A crowd of several hundred persons forcibly took Mrs. Sadler away from two patrolmen who had arrested her after she had made remarks said to have been derogatory to a high government official. The policemen, finding themselves outnumbered, surrendered their prisoner without a fight.

The policemen immediately reported the affair to headquarters and a dozen motorcycle policemen were rushed to the scene of the meeting to prevent a possible spread of the disorder. Immediately after Mrs. Sadler made the remarks considered disparaging to the police, she was surrounded by a crowd and placed her under arrest. The crowd began to mutter threateningly it is said the policemen walked away with their prisoner, Miss Elizabeth Freeman of New York, another speaker on the program, climbed to the speakers' platform and appealed to the crowd not to lose its head.

AIDED BY FRIENDS.
Disregarding, however, several hundred men followed the policemen and their prisoner more than half a block, when they closed in on the trio, blocking their further progress. Finding themselves vastly outnumbered the policemen surrendered their prisoner upon the demand of several members of the crowd. They then reported to the police station and more than 40 patrolmen and detectives were sent to the meeting to aid them. The meeting after the policemen had given her up to the crowd and members of the department were making a search late last night. It was their opinion that she had been taken to the home of some friend.

NEW YORK, Aug. 17.—More than 100 citizens of New York, it was announced today, had joined the newly formed vigilante committee to wage a vigorous campaign against soap box orators whose utterances are considered improper.

LOS ANGELES, Aug. 17.—Los Angeles has established a chain gang for the benefit of loafers and I. W. W.'s who refuse to work. This is following out the edict of Mayor Woodman, who announced today that a drive on job dodgers will be made at once.

SMITH RETURNS

F. M. Smith, borax magnate and prominent California capitalist, has returned to his Oakland home after an absence of several weeks in Mexico, where he combined a vacation and eight-seeking tour with business. During his journey in the southern republic he investigated many mining prospects and made personal inquiry into conditions in several of the states most wealthy in mineral and oil resources. Commercial conditions in that country of warring factions were found to be improving, with an outlook for renewed activities in all developmental work.

NEW DEMANDS

SAN FRANCISCO, Aug. 17.—Demands for increased wages and improved working conditions were presented today to the Pacific Telephone and Telegraph Company by a committee of nine representing electrical workers employed by the company in California, Oregon and Washington. The present agreement between the electrical workers and the company expires in October and the present demands are embodied in a proposed new agreement.

NEW OFFICERS TO BE TRAINED ABROAD

WASHINGTON, Aug. 17.—From the 27,000 officers taken from the training camps just closed, a considerable number are being selected to begin immediately intensive training in France under direction of Major General Pershing.

The plan provides for establishing an officers' school in the American army area, where they can be given intensive instruction similar to that given to the regular army contingent already on the ground. In addition some of the young officers may be sent to French and British officers' schools as both governments have expressed their willingness to undertake post graduate work of that nature in order to aid in the task of expanding the American army.

Some of the young officers also will be attached to the regular army now in France. When they have received sufficient training they may replace regular officers now in charge of the American units, and whose experience would be of value in the training of the new armies at home.

It is possible also that many of the new officers will be sent home as instructors as they have completed a training course in France.

MOTHERHOOD WOMAN'S JOY

Suggestions to Childless Women.

Among the virtues of Lydia E. Pinkham's Vegetable Compound is the ability to correct sterility in the cases of many women. This fact is well established as evidenced by the following letter and hundreds of others we have published in these columns.

Poplar Bluff, Mo.—"I want other women to know what a blessing Lydia E. Pinkham's Vegetable Compound has been to me. We had always wanted a baby in our home but I was in poor health and not able to do my work. My mother and husband both urged me to try Lydia E. Pinkham's Vegetable Compound. I did so, my health improved and I am now the mother of a fine baby girl and do all my own house work."

—Mrs. ALMA B. TIMMONS, 218 Almond St., Poplar Bluff, Mo.

In many other homes, once childless, there are now children because of the fact that Lydia E. Pinkham's Vegetable Compound makes women normal, healthy and strong.

Write to the Lydia E. Pinkham Medicine Co., Lynn, Mass., for advice—it will be confidential and helpful.

Don't lose sleep because of an itching skin. Resinol will make it well.

How can you expect to sleep tonight unless you do something to relieve the trouble? Eczema and other itching skin troubles don't often heal themselves. But it is surprising how quickly Resinol does heal them.

Almost daily we hear from a skin-sufferer who says "Resinol Ointment stopped my itching at once and I got the first good night's sleep I had had in weeks. Now my skin is well."

Resinol Ointment is sold by all druggists.

CAMPAIGN TO BOOM AMERICAN APPLE PLANNED

NEW YORK, Aug. 17.—An effort to increase the popularity of the American apple is to be made in an educational campaign by the members of the international Apple Shippers' Association, which has representatives in all parts of the United States and Canada, according to an announcement made here today.

Plans for the campaign, which were worked out at the twenty-third annual convention of the association, which met here, include the co-operation of the apple men with Herbert Hoover, government food administrator.

Information placed before the convention was to the effect that there was no prospect that England would lift its embargo on the importation of apples, which closed the American growers' best foreign market.

CAR SHORTAGE IS REDUCED BY WORK

NEW YORK, Aug. 17.—Reduction of 75 per cent in car shortage between May 1 and August 1, as a result of work by railroads to place a maximum of facilities at the disposal of the government for war service, was shown in a statement issued here yesterday by Fairfax Harrison, chairman of the railroads' war board.

The excess of unfilled car requisitions over idle cars amounted to 143,627 on May 1, the statement said, while on August 1 it was only 33,776.

This result has been accomplished at a time when the railroads are supplying from 15 to 20 per cent more freight service with the same number of cars than was being given this time last year, Harrison said.

"The result has been accomplished with the co-operation of shippers in general, bodies and the public in regulating operation of ships in general, making possible the extensive loading of freight cars, more prompt unloading and the elimination of a large amount of unnecessary passenger service."

—(By Howard R. Garis)

"Well, are you all ready, Uncle Wiggle Longears?" asked Nurse Fuzzy Wuzzy, the muskrat lady housekeeper, as she stood out on the porch of the hollow stump bungalow one day.

"All ready for what—dinner?" asked the rabbit gentleman.

"Oh, I remember," went on Nurse Jane. "You promised to go calling on Mrs. Wibblewobble, the duck lady, this afternoon. Don't you forget, or you'll be going off in the woods looking for an adventure!"

"Well, I was, slowly said Uncle Wiggle. 'I had forgotten. But I'm not too late. I will go to see Mrs. Wibblewobble with you, Nurse Jane. Only first I must go to the barber shop."

"I need to have my whiskers trimmed. I don't look pretty when I am not shaved. I would not want Mrs. Wibblewobble to see me like this."

"Can't you shave yourself?" asked Miss Fuzzy Wuzzy. "I'm sure you can. Just rub some lather on your whiskers the way the barber does and shave yourself. I'll wait for you."

"All right, I'll try it," said Uncle Wiggle. So up to the bathroom he went, taking his brush, he made a lot of white foam lather with a cake of soap.

Uncle Wiggle was going to rub the soap on his face to make the whiskers come off more easily when he cut them with his sharp knife razor.

"This is better than going to a barber shop," said the bunny rabbit to himself as he spread the lather on his whiskers and began to shave.

"Are you almost ready?" called Nurse Jane from outside on the porch of the hollow stump bungalow where she was waiting.

"Almost ready," answered Uncle Wiggle. "I'll be down in a—Whew! Wuff! Oh," he suddenly cried.

"What's the matter?" asked Nurse Jane.

"When I opened my mouth just now to talk to you my brush slipped and a lot of soapy lather got on my tongue!" answered the bunny. "Wug! How bitter it tastes. I mustn't talk any more when I'm shaving."

So he kept quiet, cut off the rest of his whiskers and he had just finished washing the soap off his face, when all of a sudden, up the stairs, through the back door, which Nurse Jane had forbidden to lock, came a bad old fox.

"Ah ha!" jabbered the fox. "I see you are here waiting for me."

"Not exactly," answered the bunny rabbit. "I'm going to Mrs. Wibblewobble's with Nurse Jane."

"Oh, ho! No you're not," laughed the fox. "I'm going to see you here until I carry you off to my den. And don't think you can get away from me, either," he added, locking the bathroom door.

Poor Uncle Wiggle didn't know what to do. He looked out of the window. It was too high up to jump. He didn't want to call Nurse Jane to drive the fox away for fear she would see the fox. "At last I have caught you!" said the fox.

It begins to look so," said Uncle Wiggle. And then, as he looked at the long whiskers on the fox the bunny said:

"Oh, Mr. Fox! You never would think of taking me away until you had shaved, would you? I wouldn't like to be seen with you while you have all that fuzzy beard on."

"Oh, you're too stylish!" barked the fox. "However, I'll let you shave me if you'll be quick. But mind you! No fair cutting me with the razor. If you do I'll bite you!"

"I won't cut you," promised Uncle Wiggle. So he lathered his brush well and began to spread the soap all over the whiskers of the fox, who had sat down in a chair in front of the bathroom looking glass.

"Do you like this soapy lather I'm using?" asked Uncle Wiggle, cratty like.

"Oh, it does very well," spoke the fox, indifferently. And, no sooner had he opened his mouth to speak than into it Uncle Wiggle popped the shaving brush, soapy suds lather and all.

"Oh, wow! Guff! Bloop! Wazookle!" gurgled the fox. "What a bitter taste and with my mouth full of soap he jumped out of the bathroom window to run away and get a big drink of water in the brook. So he didn't hurt the bunny after all.

Ask The TRIBUNE

ADVERTISING OF NEW BOND URGED

WASHINGTON, Aug. 17.—The national advertising board of the Associated Advertising Clubs of the World sent a delegation to Washington, headed by Herbert S. Houston of New York, chairman of the board, to urge Secretary McAdoo to spend from \$1,000,000 to \$2,000,000 in advertising the next issue of Liberty loan bonds.

A detailed plan, originally outlined before the issuance of the first Liberty loan bonds, was presented to Secretary McAdoo, calling for a division of the advertising among daily, weekly and monthly newspapers. In addition to the publication of magazines, printed posters, circulars, bill boards and other agencies. A program involving an expenditure of approximately \$1,250,000 was outlined.

No decision was reached. McAdoo spoke of the difficulties under which the department would labor in attempting to place such advertising in a large way, and the limited appropriation placed at his disposal by Congress with which to bear all the expense of the issue.

On the basis of an expenditure of \$1,000,000 the following distribution of the fund was suggested: Daily, monthly and weekly papers, including those printed in foreign languages, \$500,000; farm papers, \$100,000; small town dailies and weeklies, \$100,000; printing posters, circulars, etc., \$100,000.

The plan is identical with that hitherto unpublished, presented to the Secretary on the eve of the issuance of the first issue of the Liberty loan, and represents the views of the organizations having representatives on the board.

The amount available for floating the second issue of the Liberty loan has not been disclosed, nor has the sum spent on the first issue been made public. A total of \$7,000,000 was authorized by Congress.

DELEGATES' LATE PUEBLO, Colo., Aug. 17.—The fact that many delegates to the National Old Trails Association convention which began here had not yet arrived because their automobiles were stalled in the mud caused by heavy rains in western Kansas and Eastern Colorado was urged by J. M. Lowe of Kansas City in an address to the convention as the most conclusive argument for a paved highway between Kansas City and Pueblo. Lowe advocated the construction of such a road along the route of the old Santa Fe trail.

Our Men's Shop

Our Men's shop is crowded with new goods. Our buyer has been in New York for a month assembling Neckties, Underwear, Nightgowns, Pajamas, and other needfuls in furnishings.

GLOBE UNION SUITS

The Mirror of Fall Millinery Fashion

First Formal Showing of Fall and Winter MILLINERY

A display in ensemble of the fashions for Fall and Winter according to the dictates of New York and Paris, bought from the foremost millinery artists of the country. Included in this preliminary display are Hats from Burgess, pattern and model Hats from Schwalbe, the Wellesley Hat from Fifth Avenue, and our own exclusive Andrea and Consello model Hats. Chic styles for maid, matron and elderly women.

First Day Specials---Hats Specially priced at \$5 and \$7.50

As a special feature of this preliminary showing we offer lovely hand-made Hats of exquisite material in bright or sombre colors. Our stamp "Only-one-of-a-kind," on each model. A remarkable chance to get an exclusive hat at an inexpensive price. The best style—plus the best workmanship.

New Wool Dresses for Autumn Wear

Extremely fashionable for Fall wear with scarf of plush or fur. Made of serge, tricot, gabardine, broadcloth or velour, in colors of navy, brown, green, Copenhagen and black.

Some are in coat styles, some are straight-line effects with pleats and belts, others have surplice waists with peg top skirts, tight sleeves and narrow shoulders.

There are simple tailored styles for common and school wear and dressy models trimmed with braid, fur or plush. The military note is noticeable and is exceedingly fashionable. Satin or Georgette vestees with large collars, hemstitched or picoted are also popular trimming features.

Included are simple, girlish modes for high school and college misses, with plain tailored waists, large collars and skirts with knife or box pleats.

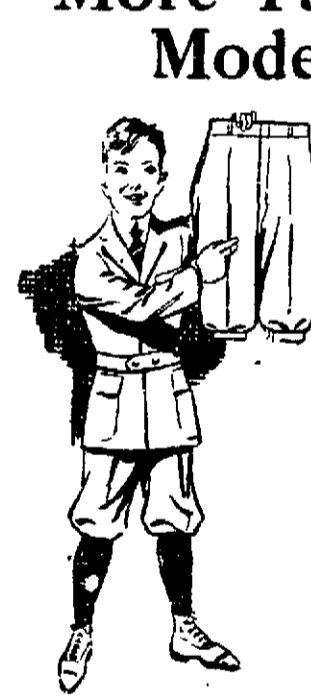

Prices \$12.50 to \$82.50

Saturday---Wirthmor Waist Day

Though the prices remain the same the high standard of quality which has been established for these waists will be fully maintained.

Four new models in pretty Fall styles will be placed on sale tomorrow. The cost of the waists is so very low and the standard so high women should buy several of them to insure more frequent changes and longer wear.

More Fall and Winter Models in Boys' Norfolk Suits

came yesterday. All made from woolen fabrics by tailors who specialize in boys' clothing.

Norfolk models with all the new style ideas in cut, finish and appearance for boys from 6 to 17 years.

Prices \$3.00 to \$7.50

Some of these have the extra knickerbockers.

Corduroy Norfolk Suits New models, strongly made, in sizes from 6 to 17 years—\$5.75 to \$7.50. Extra knickerbockers to match if desired.

Boys' Hats In felts and cloth. Nobby shapes and new colorings. Wonderful values at—\$1.50.

BOYS' CAPS—Made from all wool fabrics in new shapes—50c and 75c.

New Mackinaws Neat and bright plaids in greens, browns and grays. Made in very latest styles. Sizes 8 to 16 years—\$5.75. Mezzanine Floor.

New Fall Neckwear

Fascinating assortments of the newest neckwear modes, showing all the new style touches of the season. Both the new roll and flat models in the favored materials of—SATIN GEORGETTE CREPE—FAILLE SILK PIQUE and ORGANDIE

Some of the organdie collars have tiny picot-edged ruffles in white, rose, yellow and blue; also of net. Others show hemstitching, lace and hand embroidery. Very fetching for dress or tailor suit. Prices—50c to \$5.95.

New Ascot Ties

This is the season of tailored styles, and Ascot Ties seem to be especially designed, so appropriate are they for the tailored waists or suits. In linen, repp, pique and crepe de chine in many colorings. Prices—25c to \$2.50.

New Fichu Ruffling

Sheer, dainty fichu ruffling of organdie, net and Georgette crepe. Of fine texture but strong weave. Gives just a dainty touch of trimming to one's dress. Yard—60c to \$2.25.

New Windsor and Middie Ties

Beautiful new shades in attractive Middie and Windsor ties for wear with waists or one-piece dresses. Prices—25c to \$1.25. Neckwear Dept.—First Floor.

Capwells

PROFIT RULE JARS COUNCIL OF DEFENSE

WASHINGTON, Aug. 17.—Many "big business" representatives on the defense council's subordinate committees are on the verge of resignation today because of the rider attached to the food bill which bars them from selling their own goods to the government. Uncertainty as to the law's application has halted all work.

It is reported whole committees have already resigned, but so critical is the situation in the council that officials refuse to talk. The upheaval points to the new war industries board President Wilson may be forced to step in and save from collapse the entire defense council structure.

Attorneys are reported to have told committee members they could not serve under the new food bill provision without laying themselves liable to huge fines or imprisonment.

Attorney General Gregory, after hearing appeals from leaders in the defense council is understood to have placed the matter before President Wilson.

COAL PLEDGE REPUDIATED.
CHICAGO, Aug. 17.—Illinois coal operators today repudiated their agreement with Governor Lowden to co-operate with the state fuel director

EXCEED WAR QUOTAS RECRUITS IN STATES

California, with a quota of 4754, has furnished 7186 war volunteers for the regular army, according to official figures sent out today. Nevada's quota of 162 men was exceeded by 774, the adjoining State supplying 936 soldiers for the army. The number of war volunteers, entering the regular army, now exceeds 190,347 men, bringing the roll 7000 above desired war strength.

Although the quota for the new army was completely filled several days ago, it was announced today that the recruiting stations throughout the country would not relax their efforts in obtaining men for the army. Over 1000 enlistments are recorded daily throughout the nation. Although twenty-five States have not supplied their quota of volunteers, other commonwealths, such as California and Nevada, succeeded in topping their estimated quota several times over.

In reducing coal prices, by formal action or unofficially, in the coal hearings which began this morning.

The operators explained that they had been requested by the federal trade commission not to complicate federal action in fixing prices and in view of the fact that the Lever law gave the President full power to regulate coal prices, they felt constrained to withdraw.

Fuel Director Carter continued the hearings without the operators and will make an effort to establish a price, despite the action of the operators.

Carter drove straight to the heart of the problem today when he dispensed any notion that the wrangling of the many factions had halted the investigation.

"I am going ahead with the hearings," said Justice Carter. "It is the wish of Governor Lowden. We will proceed unless specifically ordered by

the administration at Washington to

WILL FIX PRICES.
INDIANAPOLIS, Ind., Aug. 17.—Governor Goodrich will issue a proclamation calling the Indiana legislature into extraordinary session on August 27 to legislate against outrageous coal prices. This fact was learned from authentic sources today. The governor, however, withheld formal announcement of his plans.

WASHINGTON, Aug. 17.—Traveling salesmen's organizations, comprising about 600,000 members, have pledged themselves to a wheatless and meatless meal every day, the food administration announced today. The Federal Trade Commission has completed its investigation into the cost of steel production in the United States. It will submit its report to President Wilson within a very few days.

President Wilson is expected to fix a price on all steel products immediately.

PROTEST WHEAT RATE.
FRANK FORTS, N. D., Aug. 17.—As a result of action taken today by the Frank Forts Commercial Club, farmers and commercial organizations of the Northwest will be asked to protest to the food control board against the lowering of the wheat price below that of the open market of August 11, when Herbert Hoover announced his plans. The price on that day was \$2.08.

In telegrams to North Dakota congressional delegates, the club contends that a price below the market value is an injustice to the farmer, and states that cities and organizations throughout the Northwest have been asked to take similar steps. They declare that the "competitive market" is destroyed by the government.

CHEYENNE, Wyo., Aug. 17.—Theodore C. Diers of Sheridan, appointed food commissioner for Wyoming, a prominent banker of northwest Wyoming. He was elected to the Wyoming house of representatives from Sheridan county in 1913 and to the state senate in 1915, and still is a member of the latter body.

NEW YORK, Aug. 17.—Trading in coffee futures was suspended today on the New York Coffee Exchange at the suggestion of Herbert Hoover.

Ask The TRIBUNE

MRS. MOONEY GRANTED BAIL BY 2 JUDGES

SAN FRANCISCO, Aug. 17.—Mrs. Rena Mooney was granted bail by Superior Judge Franklin Griffin this morning and similar action was taken conditionally by Judge George Cabanis. Both judges denied bail to Israel Weinberg, co-defendant with Mrs. Mooney in nine indictments for murder in connection with the preparedness parade bomb outrage. No amount of bail was fixed, and Mrs. Mooney will not be given her liberty until a decision is received from Superior Judge Frank Dunne, in whose department several indictments against her are still pending.

That Weinberg will be given his liberty on bonds in the event that he is not immediately tried, was the intimation of Judge Griffin in deciding his petition.

The acquittal of Mrs. Rena Mooney in another department of the court and the fact that the same cause of action is stated in the indictment against her there appear in those on my calendar leads to the belief that she is entitled to bail, and it is so ordered," declared Judge Griffin. "As far as Weinberg is concerned, he has not been tried and as the district attorney will not admit that the evidence against him presented in the cases of the other defendants is all of the evidence which might be produced, makes it necessary for me to deny him bail at this time. If, however, he is not given a trial in the near future, I will entertain another motion for his release.

Attorneys Maxwell McNutt, Nathan Corbin and Charles Freeman, with the defendants, then visited Judge Cabanis. After denying Weinberg bail, the court spoke for a long time on the case of Mrs. Mooney and finally decided that she was entitled to bail.

"I will, however, render no formal decision at this time," asserted Judge Cabanis, "but will wait until I have considered the evidence for me to believe that the offense is a serious one, but I do not think it should be regarded in any other way than similar cases. Mrs. Mooney's affiliations, beliefs, prejudices or actions should not be taken into consideration. I think that we should have high bail here as in all murder cases, and I will not consent to amounts as are fixed for disturbing the peace."

Corbin pointed out that Edward Nolan, co-defendant, was at liberty on \$250 bail on each indictment. The court said he would not take this as a precedent.

**Nothing Stops
Bill Hart, Demon
Rider and Fighter**

Hero "Badman" Leads All Merry Chase in "The Bargain"

Nothing stops Bill Hart, for he starts out in "The Bargain," which is at the Kinema today and tomorrow, by holding up the stage, leading the posse a merry chase, double-crossing them and even later when captured by the sheriff he beats him at his own game and with his assistance robs the gambling den.

He follows this up with another wild chase and sensational fall over a cliff and one big surprise at the end. "The Bargain" is typically Bill Hart, thrills, dangers and shooting clear through.

Also on the Kinema program is a Keystone comedy, a trip to old Nassau with Barton Holmes and the latest in weeklies.

SPERRY DRAFTED

SAN RAFAEL, Aug. 17.—Though James W. Sperry, one of the principal stockholders of the Sperry Flour Company, made affidavit that he has a wife and

two children who need his income for their support, the Marin county local exemption board today denied his claim of exemption. The board found that Mrs. Sperry has an independent income to care for herself and the children.

PLANES COLLIDE 800 FEET IN AIR

TORONTO, Aug. 17.—Two aeroplanes flying at high speed crashed together 800 feet in the air at the Armour Heights aviation camp today, one of the machines bursting into flames and plunging to earth, killing the aviator, Cadet S. H. J. Dorn. The victim's neck was broken and his body badly burned.

The other aviator, whose name is withheld by the royal flying corps, was able to manage his machine and reached earth safely.

DOING THE LARGEST SHOE BUSINESS IN OAKLAND
Park Shoe Co.
 475 Fourteenth Street, Oakland
 Opposite City Hall Park
 BALLOONS GIVEN WITH SHOE PURCHASES SATURDAY

Tonight! Take Dodson's Liver Tone! Better Than Calomel For Liver

Calomel sickens! If bilious, constipated and head-achy read my guarantee.

Listen to me! Take no more sickening, salivating calomel when bilious or constipated. Don't lose a day's work!

Calomel is mercury or quicksilver, which causes necrosis of the bones. Calomel, when it comes into contact with your bile, crumbles into it, breaking it up. This is when you feel that awful nausea and cramping. If you are sluggish and "all knocked out," if your liver is torpid and bowels constipated or you have headache, dizziness, coated tongue, if breath is bad or stomach sour just take a spoonful of harmless Dodson's Liver Tone.

Here's my guarantee—Go to any drug store and get a 50-cent bottle of Dodson's Liver Tone. Take a

spoonful tonight, and if it doesn't straighten you right up and make you feel fine and vigorous by morning, I want you to go back to the store and get your money. Dodson's Liver Tone is destroying the sale of calomel because it is real liver medicine; entirely vegetable, therefore it can not sicken or make you sick.

I guarantee that one spoonful of Dodson's Liver Tone will put your sluggish liver to work and clean your bowels of that sour bile and constipated waste which is clogging your system and making you feel miserable. I guarantee that a bottle of Dodson's Liver Tone will keep your entire family feeling fine for months. Give it to your children. It is harmless; doesn't gripe and they like its pleasant taste.—Advertisement.

**Our \$19.50 coats
are becoming famous**

Why? Because they're remarkable—in material, making and modeling. One style is just as pictured. Note the dashing cut, full sweep, 48-inch length, the style innovations at back, belt and pockets. Of course you cannot see the high quality of the American wool velour (Russian green, navy, plum, African brown, Burgundy.) The big collar is Kerami—or you may have seal plush. Hurry for yours. Not many of these remarkable coats at \$19.50.

Coats for girls. 6 to 14, at \$6.95

are equally remarkable for the price. They're the mixtures that mothers favor. Features are single or double belts, fancy buttons, stitching, large collars, etc., etc., etc. If you're looking for coats of style and service, see these we have marked at \$6.95.

FOR GIRLS 2 TO 11 WE'VE CONDUROY, ZIBELINE, PLUSH, SERGE AND MIXTURE COATS PRICED UPWARDS TO \$12.50

**Knox block
sailors \$5.00**

That's a "special" price; they're worth more. Nothing more chic and tailored. All black. Hatter's plush and velvet, bound and banded with grosgrain ribbon. Also only \$5 are twelve different ultra-smart blocks. See them!

NEW HOUSING LAWS ARE TO BE ENFORCED

The three new state laws regulating the construction, occupancy and sanitation of tenement or apartment houses, hotels and private dwellings, which were prepared by the State Commission of Immigration and Housing, become effective September 1, 1917.

The commission's housing bureau is busy preparing a state housing manual explaining and amplifying the provisions of the laws by cuts, drawings and annotations. In this manner it is hoped to make the laws as readily understood by the layman as by the professional or technical persons who use them. The bureau is also sending out notices to the mayors, health and building departments of the various cities and towns, also to the district attorneys of the various counties, directing their attention to the fact that they are charged with the duty of the enforcement of the laws in their respective cities and counties and urging that they see that the laws are consistently and effectively enforced.

The State Housing Commission is authorized to enforce the laws anywhere in the state where city or county officials fail, neglect or refuse to do so.

The commission further expects not only to assist the cities and towns in seeing that the laws are uniformly and impartially enforced but also intends to help the cities in organizing and reorganizing their municipal forces so that a uniform and effective program will be instituted to the end that all places where human beings reside are erected and kept up in conformance to the provisions of the new state housing laws.

WILL ASSIST CITIES.
The housing bureau will also assist the cities in preparing and having enacted by their local legislative bodies building, housing, city planning and zoning ordinances, and will act as a clearing house for all questions that may arise pertaining to the subject.

Briefly, the provisions of the new state housing laws fix the minimum size of rooms used for human habitation, provide that they have windows opening to the outer air, fixing the minimum size of windows based in ratio to the floor area.
Provide for unoccupied spaces, such as yards, courts and a certain percentage of the lot; require that all plumbing be by their local health and building departments; fix the minimum number of water closets, slop sinks and similar conveniences, require a given number of stairways, fire escapes and other means of egress for use in case of fire, limit the height of buildings according to the materials used in their construction. Absolutely prohibit so-called "dark rooms," i. e., rooms without windows opening to the outer air, and stringently restricts the erection of so-called "tenements" and "rear hotels," provide for privacy and cleanliness and sanitation of not only the buildings but of the surrounding premises.

ADAPTED TO SHOW.
The unique and original method in which these three laws were prepared is interesting. A year and a half ago the commission completed a very care-

DATE IS SET TO STOP DISTILLERS UNDER FOOD LAW

WASHINGTON, Aug. 17.—Eleven o'clock on the night of Saturday, September 8, is the time fixed by the food administration when all processes in the production in the United States of distilled spirits for beverage purposes must stop. The thirty-day period allowed from the approval of the food control law expires at midnight, September 9, but this date falls on Sunday and internal revenue laws prevent the operation of distilleries after 11 o'clock Saturday night.

LAD DROWNS IN SWIMMING POOL

Police and coroner's officials are investigating today the death by drowning of Edwin Smith, 6 years old, 692 Fifty-seventh street, who fell into the Idora park swimming pool last night and remained submerged for twenty minutes before his older brother, William, 10, brought aid. The lad fell into water 8 feet deep while playing with his brother and another boy.

Falling in their attempts to reach Edwin, the playmates ran for aid, but instead of telling the first adults they saw, ran through the park searching for J. W. Smith, the father, who had accompanied them to the resort. By the time that Smith was found, it was thought life was no longer in the small body at the tank's bottom. Once notified of his son's accident, Smith, accompanied by several soldiers and sailors, ran to the tank, where efforts were made to get the boy out in time. Several men dived in without removing their uniforms. The body was recovered. It was found to have retained some warmth and was revived and kept up in the police ambulance while en route to the Emergency hospital. The boy was dead on admission to the hospital.

According to scattered accounts of the tragedy from the older brother, the lads were playing near the tank when Edwin Smith fell into the water. According to park officials, the boys had been warned away from the tank.

The men who attempted the lad's rescue under the pale glare of the Idora park searchlight included the following: Private Victor Thompson, a company, Twelfth Infantry; Private Fred J. Keller, 2 company, Twenty-first Infantry; Private Charles B. Anders, A Company, Twelfth Infantry, and Yeoman R. N. Tracey, B. S. Britton and James Taylor.

OFFICER SHOT

BALTIMORE, Md., Aug. 17.—Major Charles Billingsley, U. S. A., chief of the sanitation work at Camp Meade, was found dead from a bullet from an army service pistol. The body was discovered in Billingsley's tent at the camp. A committee of five officers, headed by Colonel Klein of the Tenth New York Infantry, expressed the belief the shooting was accidental.

Major Charles C. Billingsley was a native of Westminister, Md., and had been in the United States army fifteen years. Part of it he had spent in the Philippines and more recently he had been assigned to Fort Meyer, Va. He is survived by a widow and three children.

TWO DIE IN CRASH

FORT WORTH, Tex. Aug. 17.—Lignier Jerry Scott and Fireman W. A. Hammock, both of Denison, were killed and four persons injured last night when a passenger train and Texas limited collided with a freight train near Watauga, nine miles north of here. None of the injured was seriously hurt.

GIRL IS ACCUSER

PORTLAND, Ore. Aug. 17.—John Ruard was arrested here on charges that he had hypnotized Anna Collins, a girl of 23, and had married her in San Francisco. Ruard convinced the authorities that he had married the girl in good faith and was released.

WOMAN KILLED

TEHACHAPI, Aug. 17.—Mrs. J. B. McCann, wife of a well-known rancher six miles east of here, was instantly killed when their team ran away on a steep grade and the buggy was overturned. McCann and their little daughter escaped with slight bruises.

RAIL MEN MEET

SALT LAKE CITY, Utah, Aug. 17.—Two meetings of general officials of the Union Pacific system will be held in Salt Lake next week. General superintendents of the various units of the system will meet August 21, 22 and 23, and the general stockholders will meet August 24.

Face and Arms Unsightly with Red Itching Pimples

Blackheads and Blotches. Unable to Rest. One Box Cuticura Ointment, One Cake Soap Healed.

"When I was almost ten years old my face and arms became unsightly with pimples, blackheads, and red blotches. The pimples were large, red, and hard, and after two or three days they would fester and I would squeeze them and then there would be a big red spot. They were always itching and burning. I was unable to rest at night. I read of Cuticura Soap and Ointment and tried a free sample. I bought more and I used one fifty-cent box of Cuticura Ointment and one twenty-five-cent cake of Cuticura Soap when I was healed." (Signed) Miss Lola Wilson, Box 205, Oak Creek, Colo., Mar. 22, 17.

Improve your complexion by using Cuticura Soap daily and Cuticura Ointment as needed to prevent pimples, blackheads or other eruptions. Pimples and complexions are often a bar to social advancement and business success. Nothing so ensures a clear skin and good hair as making Cuticura your every-day toilet preparations.

For Free Sample Each by Return Mail address post-card: "Cuticura, Dept. H, Boston." Sold everywhere. Soap 25c. Ointment 25 and 50c.

MELTING POT ROLDS BRAVE AND WEAK

NEW YORK, Aug. 17.—New York's famous melting pot of the nations is on exhibition today at headquarters of the district exemption board, presided over by former Justice Hughes, where men of nearly every race under the sun come to appeal their claims for immunity from army service.

Swedes, Germans, Czechs, Slovaks, Swedes, Guatemala, Italy and numerous other lands, filed past the clerk in an unending stream, some hopelessly bewildered, some escorted by lawyers, pressing their claims vociferously. Many spoke English with difficulty. Nearly all had their first naturalization papers, however. Pleas for exemption covered an astonishing range.

"I am a subject of the Czar of Russia," one man confidently declared. He appeared staggered to learn the Czar had been deposed.

"I am not seeking exemption from anything. I want to fight in the navy. I just passed the examination when orders came not to take any man liable to be drafted."

Blue Bird Bureau

While work in many lines is undoubtedly plentiful at the present time, there is occasionally a case of hardship in which a man has striven against adversity to find employment and has failed. Such an instance is described in a letter which came to the Blue Bird Bureau yesterday.

The writer is a former inmate of San Quentin. He served six years in the penitentiary and was released July 5. He is 56 years old, and is a small man, weighing only about 115 pounds. Heavy labor is impossible to him. His special training has been that of a professional nurse.

"I do not want to go back," he said. "I was told that it was better to tell the truth about myself than to get a job by lying, and then get found out afterward. But when I tell them what I am, they won't give me anything. Are they going to let a man starve?"

He has had only ten days' employment since he has been a free man. He has walked the streets, has slept in fields. In concluding his letter, he said: "I am a graduate nurse of class 91, Bellevue Hospital, New York City, and I have tried all the hospitals on both sides of the bay between here and San Jose without success."

"I am a graduate nurse of class 91, Bellevue Hospital, New York City, and I have tried all the hospitals on both sides of the bay between here and San Jose without success."

MYSTERY 'PLANE SOUGHT BY POLICE

FOND DU LAC, Wis., Aug. 17.—Authorities—sans camouflage—for the past week or more have been scouring "The Ledge" in the vicinity of Lake Winnebago to ascertain the hiding place of a mysterious airplane that has been seen on numerous occasions flying high above the lake.

The story at first was scouted as a mere fancy until last night motorists returning from the east shore reported having not only seen the lights of the strange aircraft but to have plainly heard the purr of its motor. Still others returning from Milwaukee in motorboats confirmed the story of the motorists. Fully a hundred persons lined the breakwall between 10 and 11 o'clock watching the antics of a machine, which seemed apparently to be under perfect control.

When first seen, the plane was about 4000 feet high, its lights plainly outlining its course as it dipped and spiraled its way through the starlit heavens.

COMB NATION FOR DESERTER OF GIRL

DENVER, Aug. 17.—Nation-wide search was instituted today by federal authorities for W. L. Clark, charged with violation of the Mann act in taking 18-year-old Dora Frost from this city to Chicago, Detroit, Buffalo and New York and deserting her in Providence, R. I.

Clark, a deserter from the Colorado National Guard, posed as a captain of the regular army. Upon representation to the girl's parents that he had secured a government position for her in Washington she was allowed to depart with him.

According to the girl, who returned to Denver today, the couple lived as man and wife, although no ceremony was performed. Upon reaching Providence, \$220, which the girl's mother had advanced for the trip, was found to be missing.

MUST KILL RACKET.
One month was allowed the Bay Engineering Company to take the noise from the radiators of the Bishop

BOOZE SHIP HITS BAR; LAW TAKES NIMBLE SKIPPER

PRAIRIE DU CHIEN, Wis., Aug. 17.—Like the character of song fame who floated down the river on the good ship Rock and Rye, Joseph Stitzer, of here and here on the old Mississippi, floated too far and today is stuck on the bar of justice.

Joe was the proprietor of a houseboat saloon, which, to comply with rules of navigation and the liquor laws of both Wisconsin and Iowa, was required to change his habitat, that is, immediate surroundings, every twenty-four hours. Business became too heavy for his craft and it hesitated on a sandbar just sufficiently long to permit the authorities to confiscate boat and booze.

Theater of this city by Superior Judge William H. Waste. If the heaters are then in proper working order and can function without too great noise, the claim of the engineering company against the Miller Estate Company, owners of the theater, for \$2000 will be allowed.

WIFE TAKES LIFE, FEARING ANOTHER

CHILECOTHE, O., Aug. 17.—Because a woman named "Dora," from El Paso, Tex., had sent a telegram to her husband notifying him that she was coming here to claim him as her husband, Mrs. James Nelson late last night shot and killed her husband, shot her 8-year-old boy and then killed herself. The boy died this morning. The woman left a note explaining why she had done the shooting. The Nelson family came here recently from Fort Wayne, Ind. The father and husband was employed on construction work at the new army cantonment here.

HOPE FOR POLES

LONDON, Aug. 17.—Reuter Limited says it learns on good authority that German concessions in Poland are expected shortly, but they will be conditional on Austria's approval.

DR. PALMER HEADS Y. M. C. A. AT CAMP

Rev. Albert W. Palmer, pastor of the Plymouth Congregational Church, upon his arrival from Honolulu yesterday, where he has been on a five weeks' vacation, found orders awaiting him to report for duty at Camp Fremont as head of the Army Young Men's Christian Association work, under the auspices of the Association War Council. In anticipation of his call to duty, Dr. Palmer's church granted him a six months' leave of absence before he left for Honolulu.

Six buildings have been set aside as a part of the Y. M. C. A. system at Camp Fremont. The general work is under the direction of C. G. Tiltus, former secretary of the Sacramento Y. M. C. A. Efforts will be made to enlist the attention of the 40,000 Federalized guardsmen who are to be established at the camp for preliminary training purposes.

Dr. Palmer will preach his last sermon before shedding his clerical garb to don the army khaki at both morning and evening services next Sunday at the Plymouth Church. "He Knew What Was in Man," will be the subject of the morning sermon, and "The Cross-Road of the Pacific" the evening topic. He will also give an illustrated lecture on Hawaii next Wednesday evening.

STEFFENS SAYS RUSS CAN WIN WAR

That Russia's hundred and fifty millions have the power to walk right over Germany but that they want to be convinced that the allies are waging war in the interests of true democracy and not to fulfill secret treaties of imperialism design, was the conclusion reached by Lincoln Steffens, writer and lecturer, in an address last night at the Municipal Auditorium.

It was at a meeting of the Oakland Center of the California Civic League that Steffens spoke. But immediately after the address, which had been interrupted by statements that the only real autocrats had been the "special interests," and with comparisons of new Russia's democracy and this country's "political democracy," Mrs. L. G. Leonard, the center president, hurriedly announced that the center did not endorse the views of any of its speakers.

CREATES STIR

Coming after and not before the talk on "The Russian Revolution: War and Peace," this created a slight stir. The Oakland Center is the women's organization that a short time ago refused Mrs. Hanna Sheehy-Skeffington, Irish Nationalist, its platform because of her criticism of England.

Steffens, who but recently returned from Russia, said among other things: "The revolution was not planned. It was not a revolutionists' revolution. In the terrorist days they were trying what we might call I. W. methods. When something terrible was to be done, women were called upon." The success of the revolution, he suggested, was due to the education campaign that had been carried, largely by women, even into Siberia.

BREAD HELD BACK

"It was the government's scheme of provocation that finally brought the revolt about. There was bread in Petrograd, but it was held back. The bread lines stood all day and the police were sent to hustle them—just as they are sent in strikes. Sometimes the things that were done were outrageous. The crowds were filling the streets and watching. Then they called out the Cossacks there."

From the time the Cossacks and the troops turned over their allegiance to the people, it became a police chase. The crowd committed some outrages, but each could be explained by some separate incident. But the mob always said, "No, we must not kill." Kennedy refused to let the ministers responsible for so many terrible events, saying, "No, that's what government did. We must not do any of the things that government did."

SELF-STYLED SPY WILL BE INTERNED

KANSAS CITY, Mo., Aug. 17.—Dr. Arragard Graves, international spy and author of "Revelations of the Kaiser's Personal Spy," was under arrest here today charged with being within the forbidden zone without a permit. Graves says he is in the employ of the State Department, and is searching for Mrs. Cavendish, descendant of the British "Earl of Cavendish," who, he alleges, is in possession of papers proving the illegitimacy of the Hohenzollerns.

Graves declared he has followed "Mrs. Cavendish" from New Orleans to St. Louis and was one day behind her on his way to Denver, when arrested here. Graves has lost much of his previous dapper appearance. His clothing is frayed and his shoes are run over. He is "traveling light," carrying only two suitcases. In one was a monocle and some clothing. The other contained "papers."

Since Graves was arrested in 1914 for alleged blackmail of Countess von Bernstorff and Count von Bismarck, then German ambassador to the United States, he has not been much in the limelight. At that time he claimed to have in his possession letters addressed to the countess and he used them in an effort to secure funds which he claimed were due him from properties in Germany. He was acquitted.

Graves probably will be interned for the remainder of the war.

CAN RETAIN JOBS

SACRAMENTO, August 17.—Attorney-General U. S. Webb declared in an opinion received today by the State Civil Service Commission that the commission may hold positions open for civil service employees of California who go to war. When such employees enlist, according to the attorney-general, the commission may hold their positions for them by notifying those who succeed them that the positions will be given to the original employees on their return from war.

Webb also decided that high school students needed to help harvest crops

IS HELD AS SPY

HELENA, Mont., Aug. 17.—Morace Cutler, at one time, it is said, a first lieutenant in the California artillery, is in the guard house at Fort Harrison here on a charge of espionage. Details of the charge have not been made known. Cutler's father is said to live in Los Angeles.

may be allowed to leave school without losing credits or without the schools suffering loss of appropriation by their absence.

CHARTER IS ISSUED

DOVER, Del., August 17.—The United States State Department has issued a charter to the food administration under the war food control act, authorizing the incorporation, Washington, D. C., of a corporation of this corporation are to encourage production and conserve the supply, storage and distribution of food products. The incorporators included Herbert C. Hoover, Edgar Richard and Curtis E. Lamm. This corporation, it is said, will work in conjunction with the food administration of the federal government under the management of Hoover.

Your Suit Made to Your Measure

Few, indeed, are the tailors who can still make a good suit at \$25. Steadily rising costs for woollens make it next to impossible.

But here are worsteds, cassimeres, chevrons and fancy mixtures that we will make up in any style at \$25.

Profit? Mighty little for us, but it's good advertising. The boosts of highly pleased customers compensate for the absence of direct money profit.

From \$25 prices range to \$50 with several hundred patterns to choose from.

POLICEMEN HURT
CHICAGO, Aug. 17.—Three policemen were injured, James Farrell probably fatally, today when an automobile in which they were chasing auto bandits collided with another machine.

ts and supports the vital organs in their normal position.

COUNTY TAX LEVY MAY BE LOWERED

Tax rate for Alameda county for the next fiscal year probably will be the same or even less than that of last year if the efforts of those who are working on the county budget are successful.

Despite the newly acquired bond responsibilities the rate of \$1.02 for county taxes which will be very nearly duplicated because of the efforts of the budget makers to prune every possible item which will stand for a cut. Details of these slashes are not available today, owing to the incompletion of the budget, but the hope is expressed this morning of having the work completed in time to meet with the school authorities for the purpose of thrashing out their budget tomorrow morning.

The additional 58 cents levied in Oakland for school purposes last year may stand for the coming year, but this could not be made certain because the contents of the school budget have not been made known. The supervisors, however, have no control over this matter, as it is set entirely by law and is determined entirely on the number of pupils in each grade of school.

DR. SIMMONS TO HEAD DEPARTMENT

Recently appointed as head of the German department in Mills College, Dr. Lucretia M. T. Simmons, former professor of German in Pennsylvania State College, arrived on the campus of the women's college today to join the faculty. Dr. Simmons is a graduate of Cornell and has advanced degrees from Columbia and Wisconsin universities. She will be assigned as faculty head of Warren Olney Hall, the new residence building on the campus.

Three other new appointments for the faculty are the following: Helen Maury of Pomona College as instructor in chemistry; Susanne Everett Throop of Radcliffe, former dean of Middlebury College in Vermont, as assistant in the English department; and faculty head of Mills Hall and Catherine Wallace Eastman of Wellesley and the Carnegie Institute of Technology in Pittsburgh, as assistant in physical education.

The fall semester at Mills College begins on September 3.

GERM LAW OFF

BERKELEY, Aug. 17.—Berkeley's "germ carrier ordinance," subject of various battles by anti-vaccinationists and others not believing in the system, and protested times innumerable before the council by Assemblyman George Gelder, was repealed today by the Berkeley city council as the first step in what will be a radical reorganization of the city health department. With the resignation of Dr. A. F. Gilliland, head of the health department, the city will have no employment of a full-time health officer or health director, to devote his entire time to the city's work. This man will probably be a graduate in public health, according to the plans of Commissioner of Public Health and Safety C. Heywood, and several possible officers are already in view.

PICNIC TOMORROW

With a varied program of athletic and amusement events planned by the several committees in charge, San Antonio's picnic and family reunion tomorrow at Shellmound Park promises to attract one of the big outdoor crowds of the summer season. At a meeting last Monday of all committees reports were made to indicate completion of elaborate preparations by the mid-week. Those desiring to attend should take the San Pablo avenue cars, changing at Park avenue.

Oakland Heiress Defends Her Husband From Spy Charge

MRS. ERWIN FREDERICK SCHNEIDER, who denies her husband is a German spy. He is in federal custody. She is with her mother, Mrs. E. A. Heim (left) in this city.

Acknowledging that her husband, Lieutenant Erwin Frederick Schneider, interned today under orders from President Wilson as an alleged alien enemy, still held his commission in the imperial German army and had been living in the bay district during the war, Mrs. E. A. Heim, mother of the accused man and heiress to a \$6,000,000 mine estate, declared today that she believed her husband would prove his innocence of the charges filed against him by the United States government. Mrs. Schneider emphatically denies that Lieutenant Schneider is a spy.

Mrs. Schneider is with her mother, Mrs. E. A. Heim, at the family home, 2338 East Fourteenth street, where she went after Schneider's arrest and that of Theodore Kasinger, former department store clerk and Oakland man, who was taken into custody at the same time. The arrests were made at the Palmer House, 430 Bush street, San Francisco, on Sunday night, the men being lodged in the county jail pending the arrival of the presidential warrant.

COMES AS SHOCK.
"My husband is the best man in the world in his domestic relations," Mrs. Schneider said today. "This has all come as a shock to me, and I cannot believe that what they say is true. Mr. Schneider, of course, retained his commission in the German army during his stay in this country, but everything he did was above scrutiny. He did not act as a spy for the German government, nor did he make any reports of any kind. Wherever he went he traveled under his own name and made no attempt at concealment. I don't know why he should be taken into custody, he has no enemies that I know of. Of course, this is to be expected when two countries are at war, but he is absolutely not guilty of the charges."

FIRST KNOWN.
The first Lieutenant and the department store clerk came under the observation of the federal authorities recently through their association with James Froelich, E. A. Kietzel, Raymond Meynisch and Herman Ehrnreich, Austrian army officers who arrived recently in San Francisco. At that time the Austrians were released from detention on the signing of an agreement to keep the United States informed of their movements while in this country. The party was now headed for Mexico, according to official information.

SCHNEIDER ATTEMPTED TO ENLIST IN THE army service at Redwood City, according to government officials. Later he spent at least one day and night at Fort McDowell as a prospective enlistment. Other activities were disclosed by papers found in his possession. Hidden under a lining of his trunk was a birth certificate made out to "John W. K. Peterson," with evidence that Schneider had tried to escape from the country with whatever information he had been able to collect on a Swedish boat.

On April 19 Schneider jumped into notoriety through his employment with Miss Marie Heim, 2938 E. Fourteenth street, Oakland. Schneider at that time was employed as a freight clerk by the Southern Pacific Company. The couple were married at Redwood City after a brief courtship. His bride learned yesterday for the first time he was in jail as a German spy. Schneider spent money lavishly in San Francisco cafes, served in various capacities on the steamers Harvard, Korea and Mongolia, and in 1909 delivered a German-made submarine to the Chinese government at Shanghai.

When the seven men arrested in the miniature arsenal into which a taxicab had been turned yesterday appeared before Police Judge Brady charged with carrying concealed weapons today, they were ordered into custody with bail fixed at \$2000 bonds or \$500 cash. The court said he would punish severely all cases of carrying concealed weapons during the war strike. Mrs. Schneider made repeated attempts today to see her husband but failed. She expressed no doubt that he would prove his innocence of the charges filed against him. Schneider himself is being held incommunicado by the authorities. His proximity to the fortune which lay within his fingertips was the result of a suit filed before Superior Judge Trout in San Francisco by his mother-in-law, Mrs. E. A. Heim, in an effort to gain possession of one of the richest groups of mines in Alaska.

FABULOUS WEALTH.
The defendants were Jerry L. Wilson and his wife, Alice Wilson, one of six men who discovered gold at Nome and located the fabulously rich Ophir group. Joined with the Wilsons as defendants were J. S. Kimball and the Wilson-Kimball Mining Company. The suit was to establish a trust in mining property alleged to have been discovered under a grubstake contract and for an accounting as to the value of the property. The amount involved is said to be more than \$6,000,000.

In the early '70s Mrs. Heim took one of two little orphan girls and raised her as her own. The other, Alice Nightengale, went to Petaluma and subsequently married Jerry Wilson. Soon after this, it is claimed, Mrs. Heim grubstaked Wilson who wanted to go to Alaska. Subsequently she grubstaked Mrs. Wilson on the same terms. The complaint alleges that the Wilsons concealed their luck from Mrs. Heim, saying they were very poor. When she returned from the East a few years ago she discovered that the Wilsons had struck it rich. She brought suit for half the money in 1910, but the witnesses were scattered and the suit remained dormant for years.

Ask The TRIBUNE

B BATTERY WILL RAISE MESS FUND

So that B battery's mess fund may be increased by \$250 while the Oakland soldiers are in training, squads from the local unit will call upon theater audiences tomorrow night for a show of patriotism. One thousand copies of the song, "Call to Arms," donated by Mrs. Elaine Hayden, the composer, will be sold by the men who expect to raise \$250 for their mess fund. The committee in charge includes the following: Private C. T. Hormeister, chairman, Private James Wallace and Private Charles Watt.

The names of the men who will sell the songs, together with the theaters that have accorded support to the bary, are:
Orpheum—Sergeant Blumert, in charge, Privates Davies, Shute, Wood, and others.
Fountain—Sergeant Petersen, in charge, Privates Klempfer, Seagrave, Johnson, B. Hyde, Hulbert, Gustafson, Stott.
Bishop—Sergeant Stewart in charge, assisted by Corporals Shady, Meyer, Privates Frost, Cole, M. H. Farnham, R. Kendrick, J. White, Corporal Myers.
Hippodrome—Private Wolfe, in charge, Privates Bateman, G. Bateman, Batheider, Childers, Carido, Morrow, Sells.
Kinema—Private Carnall, in charge, Corporal White, Privates Gardenhire, Storms, McDowell, Swick.
American—Private Nielsen, in charge, Privates Ellis, N. S. Hunt, Ellsworth, Wallsted, Burton.

MOTHERS' CLUBS TO DO THEIR 'BITS'

Oakland Federation of Mothers' Clubs and Parent-Teacher Associations is planning to do its bit by contributing generously to the Oakland Chapter, American Red Cross. Each local club is asked to give a tea or entertainment, the proceeds of which will go into the patriotic treasury. Alameda school is among the first to plan a benefit, asking the members and guests to enjoy an informal tea at the residence of Mrs. A. E. Thurston on Thursday afternoon of the coming week. The club met yesterday with the teachers of the school to sew for the Red Cross.

The Walter T. Frick School Mothers' Club is extending its hospitality to the fathers of the neighborhood tomorrow afternoon, offering an interesting program of music and informal talks for their pleasure. Superintendent of Schools Hunter and Dr. Aurelia Reinhardt will be the speakers.

NEW SPOTT HOME

The new home of the Spott Electrical Company at 204 Broadway will be open for inspection to the many friends and customers of this company tomorrow from 10 a. m. to 10 p. m. The public is cordially invited to visit these beautiful show rooms, which have been decorated and furnished with an artistic display of electrical equipment.

The designs worked into the lighting fixtures are of original ideas by A. F. H. Davis, who has charge of the fixture department. The decorative scheme of the main interior is in ivory and mahogany. The entire basement is fitted out for the workroom, where the fixtures are made and finished to meet the individual requirements of the customer. A force of twenty-two is kept busy in the different departments. Industrial equipments for manufacturing plants will be featured and a competent corps of workmen is engaged in this particular department.

Henry Millman in charge of the electrical work and installations. A full line of electrical appliances necessary for comfort and convenience in the home is on display. Everything to complete the electrical installation in each instance, with suggestions from experts in their line, is carefully considered.

BERKELEY HAS SPARROW WITH WOODEN LEG

BERKELEY, Aug. 17.—Berkeley boasts something new in surgery in "Musette," probably the only sparrow in the world with a wooden leg. She hops about on it just as efficiently as her fellow sparrows—crumbs of crumbs and fights with the best of them and is, so far as known at the university, the only original of the song.
There was a little Sparrow,
And she had a wooden leg,
That ever laid an egg,
And she laid more eggs
Than the hens upon the farm
And another little drink
Wouldn't do us any harm.
Anyway, the students at the State University, when they sing the song, think of Musette. She, in the meantime, is busy watching passing teams at the corner of 14th and University streets, where she makes her habitation.
Musette was "born" with one leg and a deformed beak. Storekeepers about the corner for the past three years, have fed her, and one day the proprietor of a delicatessen shop decided to give her a leg. He took a stout match, which he cut to fit, and with a cloth and a winding thread, attached it.

K. OF C. TO RAISE \$3,000,000 FUND

Dr. John F. Slavich, state deputy of the Knights of Columbus, returned yesterday from the national convocation of Knights of Columbus held recently at Chicago.

Other delegates in attendance from California were: past state deputy James Keith of San Francisco, E. F. Conlin and A. B. Leary of San Francisco; James R. Irwin of Los Angeles, W. F. Linnett of Oxnard and John Donohue of Chico. At the convention, among important propositions voted on was that of increasing the oversubscribed \$1,000,000 war fund to \$3,000,000. Originally it was planned by the knights to raise the \$1,000,000 fund towards creating a recreation center throughout the various army training quarters and cantonments, but this sum was quickly oversubscribed by the individual members of the Knights of Columbus themselves.

It is now proposed by this extended \$3,000,000 war fund to provide, build, equip and maintain helpful institutions at each of the 32 cantonments throughout the United States, installing chaplains, sustaining recreation centers and doing welfare work among those of the army and navy generally, which work has the endorsement of all the Catholic hierarchy as well as the official recognition of the War Department.

An appeal is now being made throughout the Catholic community of the United States to co-operate with the Knights of Columbus in securing this additional fund, the national council having allotted as California's share \$100,000, of which over \$50,000 has already been subscribed.

\$40 VANISHES.
Mrs. Teresa Mapes, 2327 Linden street, reported to the police today the loss of \$40 which she stated had been stolen by a burglar from a bureau drawer in her home.

LAND FOR PARKS IS NOT SOUGHT

That the attitude of the present city administration is unalterably against the acquisition of any lands for park purposes was stated by Commissioner W. H. Edwards today in replying to the offer of Mrs. Christine H. Egally to sell property at Thirty-fourth and Broadway to the city to complete the continuity of Mosswood park. The property was offered at a price of \$45,000 and the park board has recommended its purchase. It is pointed out that the offer does not include the trees and shrubbery thereon.

Mrs. Egally stated to the council that unless the property is purchased by the city it will be cut up and sold to speculators for various uses. She said that she hoped it would be kept intact by the city, as it adjoins the Mosswood park and is now in condition to be used immediately without improvement.
"To my mind the matter is already settled," said Commissioner Edwards in response to an invitation to the council members to visit the site before the budget is adopted. "I don't think there is a chance that the council will consider any purchase of land this year."
The council members were finally persuaded to make a visit to the site this afternoon.

GOVERNOR SLEEPS IN PRISON CAMP

EUREKA, Aug. 17.—Early rising convicts in the state penitentiary road camp at the Humboldt-Mendocino line were not as early out of the bunks as was Governor W. D. Stephens of California, who had spent the night in the convict camp. The governor was waiting for the men when they rose at 6 a. m. and breakfasted with them partaking of exactly the same fare.
The governor then addressed the convicts, complimenting them on their work and declaring the road they are now building the most magnificent scenic highway in the state.
The governor took lunch at Drydenville and came here immediately afterwards. He will be given a reception here tonight.

FIND MISS WILSON

Sought for twelve days throughout the bay district by the police at the request of anxious relatives, Miss Rita R. Wilson, 234 East Twenty-fourth street, is now on her way home from Sacramento, according to a telegram received today by her sister, Mrs. William Cross, from an attorney in the capital city. The secret of the disappearance and unexpected absence remains unsolved, and her sister is awaiting the details from the young woman herself. Miss Wilson disappeared in San Francisco after arriving in that city from a vacation trip in Mendocino county.

Don't Poison Baby.

Forty years ago almost every mother thought her child must have PAREGORIC or laudanum to make it sleep. These drugs will produce sleep, and a few drops too many will produce the BLUES FROM WHICH THERE IS NO WAKING. Many are the children who have been killed or whose health has been ruined for life by paregoric, laudanum and morphine, each of which is a narcotic product of opium. Druggists are prohibited from selling either of the narcotics named to children at all, to anybody without labelling them "poison." The definition of "narcotic" is: "A medicine which relieves pain and produces sleep, but which is poisonous." "Does produce stupor, coma, convulsions and death." The taste and smell of medicines containing opium are disguised, and sold under the names of "Drops," "Cordials," "Soothing Syrup," etc. You should not permit any medicine to be given to your children without your or your physician's knowledge of what it is composed. CASTORIA DOES NOT CONTAIN NARCOTICS, if it bears the signature of Chas. H. Fletcher.

Genuine Castoria always bears the signature of Chas. H. Fletcher.

To the American Buying Public

Several years ago the "Cartwright Law" was passed by the California Legislature, the purpose of which was to prevent illegal combinations being formed, and WILL CONTINUE TO SELL BREAD chandise.

This following reproduction appeared in the local newspapers and is self-explanatory. This market is not in the combine or any other combine, and WILL CONTINUE TO SELL BREAD

FREE MARKETS TO GET NO BREAD

Cheap bread was dealt a death blow last night when an agreement was entered into between the Retail Grocers and Merchants' Association and the Master Bakers, that will prevent free markets from getting bread from any of the master bakers.
The matter was discussed last night at a meeting of the Retail Grocers and Merchants' Association, at which over 90 members were present. The sale of bread by free markets was gone into thoroughly by both the grocers and representatives of the Master Bakers and a final agreement concluded that will take the 4-cent loaf off the market.
With the exception of one market at Sixth and Washington streets, which controls a small bakery in West Berkeley, all of the Washington street markets are affected by last night's action.
The association also elected delegates to the state convention of the retail grocers, to be held at Santa Cruz on September 24, 25 and 26. They are F. C. Kover, C. B. Palmer, H. H. Slack, William Sousa, E. A. Hogan, F. R. Gray, J. E. Parish, W. Harry Campbell and J. V. Chow.

FRIDAY, AUGUST 17, 1917.

CONSERVATION AND THE ROPE.

Herr Wilhelm Oswald, the Privy Councillor of the German Empire, will no doubt be much interested to read the records of the Sixty-sixth Congress of the United States. His feelings will be of mingled surprise and satisfaction. A few months ago Herr Oswald uttered the following:

America went into the war like a man with a rope around his neck which is in enemy's hands and is pretty tightly drawn. With its tremendous deposits Germany has a world monopoly in potash, a point of immense value which cannot be reckoned too highly when, once this war is going to be settled. It is in Germany's power to dictate which of the nations shall have plenty of food and which shall starve. Germany is in the position, often realized by Bismarck, to handle the long arm of the lever. The dearth of potash, as well as the ever-increasing results of the U-boat war, is working in Germany's favor.

Herr Oswald doubtless was thinking of the fact that in 1913 Germany sent 529,000 tons of potash to the United States, which was retailed here in that year for about \$40 per ton, and that today there is only a small available supply of potash and it is selling for \$500 a ton. The German privy councillor will find in the Congressional Record above referred to that the Secretary of the Interior has informed the United States Senate that 2,400,000 acres of land containing deposits of potash, extent unknown, are withheld from development because conservation restrictions will not permit their development, not even their prospecting.

He will also read that a bill which Senator Pittman of Nevada has introduced to take out of "conservation" Searles lake in San Bernardino county, California, and allow the potash therein to be available for fertilizing the agricultural lands of the United States, is encountering bitter opposition. Searles lake is a potash reservoir the visible content of which would supply this country with fertilizer for several hundred years, and furthermore, since this lake of salts is fed by underground streams, the supply may be inexhaustible. Investors have "located" mineral claims around the lake; they have established plants for extracting the potash from the briny solution, have built a railroad to transport it to the markets, but are held up by the government's failure to put through a leasing or any other kind of a law which will permit the potash to be produced. The conservationists of Congress oppose development. Among the leaders of these obstructionists is Senator Norris, who has voted against all important war measures.

Now Herr Wilhelm Oswald will observe with surprise that the rope around America's neck is not necessarily fatal, that it may be broken with a little intelligent action. But he will learn with great joy that among the conservation faddists are to be found new allies of Germany, who are willing to keep the rope tight around their own country's throat.

A CZAR IN SIBERIA.

Retribution has laid its heavy hand upon Nicholas Romanoff, former czar of all the Russians. Orders have been issued by the provisional government of Russia for his deportation to Siberia, where he will be held in confinement in the interest of the public safety.

As Nicholas, ex-czar, makes the long journey from Petrograd to Lake Baikal and beyond, he will doubtless meditate upon the thousands who have made the faithful trip before him. He will think of the sons and daughters torn from their heart-broken parents; of old men and old women who have been sent to the silent waste places of Siberia, with no hope of ever returning. He may recall that thousands of those he sent into exile were banished upon the false report of one of his secret agents, upon the whisper of some selfish politician, or to gratify the whims of a grand duke's mistress. But he will realize, it is to be hoped, that the larger portion of those whom he sentenced to exile were so punished because autocracy, and more especially the Romanoff hierarchy, were afraid to let the common people think and speak their thoughts upon the political problems of the human race. This was a fear which haunted the Czar, and his kinsfolks and companions for years, and then the dream came true.

Csardom never will rise again to the power of

deciding the life and death of the Russian people. Slave of its former slaves, it is only a memory of the most vicious mistake of government.

This final blow to the Czar, this enforced inspection of the drear places to which he sent courageous men and women to live in misery or die as felons, might have been withheld had he proven true to the Russia that was once his to command. But he was not even that; he was a traitor, who helped the enemies of his country, whose spies brought great disasters upon the defenders of democratic Russia. Therefore, his punishment is less than just; he is still allowed to live.

CO-OPERATION THE BEST WAY.

The federal food administration, of which Mr. Herbert C. Hoover is the head, is making rapid progress, as THE TRIBUNE predicted would be the case, toward practical organization and getting into action. One of the first steps completed is the appointment of a board to consider the fixing of prices on wheat for the present year and the handling of the wheat crop by the government, if that becomes necessary.

The principal object of the food administrator is to prevent speculation and other forms of gambling in food staples and to prevent waste and hoarding for price-boosting purposes. Congress has clothed the President with unlimited powers to make the work of the food administrator in this connection effective.

Just what measure of physical control over the food resources of the country is necessary will largely depend upon the producers, middlemen, manufacturers and dealers. If full co-operation is accorded Mr. Hoover it will be unnecessary for him to dictate any course for the business of producing and distributing food to follow. It will be far more pleasant if the market gamblers close their shops and the legitimate factors in production and trade follow the government's advice faithfully. By so doing they will save themselves a lot of trouble and the government the necessity of putting the machinery of complete regulation into operation.

NO NEED OF AN EXPLANATION.

Mr. William Denman, former chairman of the federal shipping board, has enlisted the services of the two California senators to read into the Congressional Record his defense of his controversy with Major General Goethals. In so doing Mr. Denman would seem to desire to cast serious reflection upon the wisdom of President Wilson in settling the hurtful and disgusting quarrel which Mr. Denman precipitated.

Of course, it will be easily understood that since the President's method was to separate Mr. Denman from the public's service, it is not agreeable to Mr. Denman. But that is an insignificant matter. The important point is that Mr. Denman's power for obstruction has been destroyed and the program of providing the nation with a fleet of merchant steamships is progressing satisfactorily and in apparent amity.

Whether Mr. Denman's defense is to be found in the Congressional Record or in a museum of relics of human conceit no longer is of interest. The champions of this former federal official have wasted time in discussing the matter in the Senate, and their assistance to Mr. Denman in trying to create the impression that President Wilson did not act wisely in removing Mr. Denman from office will prove ineffectual.

The Syracuse Post-Standard asks if somebody will not please point out what military information would accrue to Germany by the announcement of the name of the Pacific port at which Elihu Root arrived. Germany probably knew where he would land before he arrived, but since Mr. Root is home and has emphasized the fact that pro-German Americans are traitors to their country it does not much matter. The country is glad that he is here.

Just upon the heels of that worthy and earnest movement to devise an effective method of dealing with lazy husbands who fail to provide for their wives, it develops that nearly every married man drafted for the army is supporting a dependent family.

FISH STORIES.

All the stories that Isaac Walton, of blessed memory among fishermen the world over, told or heard were not written. The great angler had no faithful Boswell to preserve for us the best of the tales told around the manor house fireplace or under the trees of the village inn, and we can only speculate upon what these tales were.

From the newspapers received on the 324th anniversary of the birth of the author of "The Compleat Angler" we gather the stories and adventures of his modern followers and disciples. A Missouri court clerk tells of an Ozark hermit who seated himself on the bank of a stream and fiddled "The Arkansas Travelers." So many fish, fascinated by the music, leaped out upon the grass that "the neighbors daily had to push hundreds back into the water." Another fisherman of the same State reports a remarkable catch at one cast. His baited hook dropped into a wire trap; the fish that took it was too big to slip through the wire net, "so out came the trap and thirty-seven perch."

A Lawrence, Kan., man swimming in the Kaw felt something tugging at the folds of his bathing suit. He took his revolver from his belt and fired; an immense catfish came to the surface. From marks on it he recognized it as a fish he played with as a boy. Catfish grow to great size in Kansas. An Arkansas City man lured one that he had hooked into shallow water, then rode it through a narrow canal into the town, where he got help to land the monster.

People living on the shore of a California mountain lake were recently in a state of consternation at discovering a blazing red "X" upon every trout caught. It was the first notification of the war to reach the remote community. The excitement abated, however, with the discovery that the catches of the next week were all marked with a pure white "P," a sure sign of approaching peace. The story was vouched for by a number of reputable citizens, but an envious Oregon paper says it was merely a tribute to that distinguished Californian who is a friend of both fish and peace.

Are these tales as good or as bad as those told 300 years ago by Isaac Walton and his friends? Or are they the self-same stories?

NOTES AND COMMENT

This country refuses Holland food because it is passed along to the country behind. Literally the Dutch are between the devil and the deep sea.

T. R. denominated those who are agitating for peace when there is no peace, or foundation for it, as "senseless creatures." He has not lost his aptness in epigram.

There will be general rejoicing over the recovery of ex-President Taft. It seemed extremely hard luck that after circling the earth in every which direction on all sorts of missions he should come to the terminus in a little Kansas town on a tour to fire the nation's heart.

Leutonic peace proposition is a fifty-fifty scheme, leaving it so that this war would have to be repeated sometime. The allies realize perfectly well that they must finish it up and have it over with for good.

The secret service men who work in conjunction with the draft boards are probing into the suspicious representations of those who seek exemption, and often finding interesting facts. Through their activity the signers of affidavits in substantiation of exemption claims are becoming much more chary.

Alameda is disappointed about the appointment of two Superior Judges, according to the Times-Star, which says: "Well, Governor Stephens has gone and done it. Alameda county has two new Superior Judges, and Alameda city was given the overlook, although presenting excellent material for the new judgeships. Probably his excellency had an eye on the political fence he is supposed to be building to ward off one James Rolph Jr. when the gubernatorial battle is fought next year."

The San Diego Union promulgates this: "It may take Eastern slang some months to reach the Pacific coast, but we frequently invent a little of our own. A San Diego boy who was reprimanded yesterday by his sister, said: 'Snow again. I don't quite get your drift!'"

The Avalon Islander warns of the danger of being too cordial: "It is a serious thing to slap a man on the back these days. Two men almost got to fistic troubles because one had a slap on his sun-burned shoulders."

The Salinas Index takes account of a certain perversion: "Our peculiar military system turns down the man who is anxious to go to war but has to wear glasses for a slight defect, and compels the man who has a little better eyesight to go, even if he has to be dragged all the way."

Mr. Denman's defense is to be found in the Congressional Record or in a museum of relics of human conceit no longer is of interest. The champions of this former federal official have wasted time in discussing the matter in the Senate, and their assistance to Mr. Denman in trying to create the impression that President Wilson did not act wisely in removing Mr. Denman from office will prove ineffectual.

SLIM PICKINGS

SPIRIT OF THE STATE PRESS

And now the roller towel is gone. Sacrificed to the dictates of progress, cast aside to satisfy the demands of the legislature. A friend tried and true, endeared to us by the memories of long and intimate association, we sorrow to see it go. And so, as we take it down from its familiar place, there is a little mist of regret before our eyes, and we take it and tenderly stand it up in a corner behind the ink barrel, where it may be preserved for old time's sake. Farewell, old faithful friend! Good-by!—Santa Rosa Republican.

It is hard to control a feeling of bitter resentment when we read that all surveys have been completed and work is about to begin upon the state highway between Crescent City and Requa, in Del Norte county. Nothing the Germans have done in Belgium has been more outrageously unjust than the treatment accorded to this county in connection with the unfinished friend of highway between Santa Rosa and Petaluma. The attitude of the commission seems to be that we are to be left out of the picture and consequently they can ignore us. This may be true, but we are not yet convinced of it; and the commission may rest assured that if and when we figure out a mode of action, the people north of the bay will pursue it so

TODAY 20 YEARS AGO

Seventy-five members of the Brooklyn Presbyterian Church signed pledges against riding bicycles for pleasure on Sundays. It was reported at an executive meeting of the Christian Endeavor Societies of this county. Hundreds of gold seekers from the bay cities and throughout the state went prospecting in Trinity county where rich strikes were reported. Lieutenant Frank Long Winn of Berkeley arrived at Paris in a travel through Europe. R. T. Chestnut and E. E. Trefethen of the State University went to the Klondike.

NOT HELPING HARMONY.

Doesn't help on harmony, No, s'fice, it don't. When he has the "will" power, and When she has the "won't."—Memphis Commercial-Appeal.

FORWARD THE 400!

Any soldier who in civil life has worn a silk hat should be able to wear the steel helmet without special discomfort.—Chicago News.

THE JESTER

Not a Bad Idea.

A young man went to a dentist the other day to have several teeth extracted. "I suppose I ought to take something to deaden the pain, but I'm afraid of this gas you use," said the prospective patient.

The dentist reassured him and wound up with: "You'll only be unconscious two or three minutes at the most." The patient took out his pocketbook. "Never mind that now," said the dentist. "You can pay me when I've finished."

"It wasn't going to pay you?" exclaimed the patient. "I was going to count my money!"—Philadelphia Public Ledger.

Only Natural.

A sentry, an Irishman, was on post duty for the first time at night, when the officer of the day approached. He called, "Who comes there?" "Officer of the day!" was the reply. "Then what are you doing out at night?" asked the sentry.—Everybody's.

Remember This.

"I'm glad Billy had the sense to marry a girl who sold me out of the war." "Why, grandma?" asked the son. "Well, gals is highly-tighty, and wid-ders in kinder overkillin' and uppettin', but old maids is thankful and willin' to please."—Tit-Bits.

NORTHCLIFFE SEES UNION FOR DEFENSE

NEW YORK, Aug. 17.—Federation of the English speaking races for mutual protection is regarded as a probability by Lord Northcliffe.

"The English speaking races in the new world and the old are united for the first time in history," Northcliffe declared today.

"They are joined together by the cement of necessity. It is not surprising that many people should be asking whether the union of the English speaking races ought not to be continued after this war has come to an end.

"For a hundred years England was regarded by the United States as their hereditary foe. That period has passed away.

"Whether there would be further advantages in a federation of the English speaking peoples, I shall not attempt to decide here," he concluded.

"All I see clearly at present is that if Prussian absolutism remains intact after the war the two peoples will be forced to come together for mutual protection against it."

QUOTAS FILL AS CLAIMS FAIL SURPRISES IN STORE FOR MANY

Those men who have sought to evade the draft via the exemption claim route probably will be rudely shocked when the final returns from the seven local exemption boards are made public. With the tightening of the screws on all dependency claims and the new rulings in regard to married men, local draft boards have announced that they will have little difficulty supplying their allotted quotas without calling out many more men.

Every board has had innumerable cases of men who have claimed exemption without sufficient foundation and as these are being weeded out the lists of certified men from each district is growing.

In fact, so thorough has been this weeding out process that Dr. Herrick, chairman of local exemption board, division No. 6, stated yesterday that it would not have been necessary for his board to issue a second call at all if they had been allowed to include in their quota the men who have enlisted from their district.

One of the clerks of the board expressed it as his opinion that most drafted men seemed to think it incumbent on them to file a claim for exemption. Dozens of times a day, he said, the question was asked, "What can I claim exemption on?"

"Men who had never in their lives contributed a cent toward the support of their parents filed, without

compunction, claims that they were the sole support.

They will sign their names and swear to anything," one board member said, "and never consider they are doing anything wrong."

One such case was that of a young man who, for the last six months, has been an inmate of the city prison. He had a claim for exemption on the ground that he was the sole support of his mother—an aged and infirm parent—whereas the jailer stated that he was receiving \$50 a month from his mother and was having his meals sent in from the outside on the money so secured.

SOME CASES.

Another case which was brought to the notice of the board members in division No. 6 was that of a man who claimed to be the sole support of a wife and child. Under ordinary circumstances this claim would have been allowed as the affidavits were properly made out and sworn to.

It happened, however, that a neighbor learned of the case and gave information to the board that the man had married this woman a widow with one child—July 12 of this year, for the sole purpose of evading the draft law. In the affidavit the woman had sworn that the drafted man was the father of her child, but when the exemption board questioned the claim she laid the blame on the notary, saying she had never read the affidavit.

TO TAKE ACTION.

In some cases drastic action will be taken against those who have made false affidavits, and the culprits will be prosecuted, not only as slackers, but also as perjurers, and the courts will be asked to impose heavy penalties.

These false affidavits have imposed a great burden on the draft boards as it is practically impossible, unless information is furnished the board from outside sources, to distinguish the true from the untrue. However, as virtually all exemption cases will be appealed before the district board it is unlikely that false claims will not be found out sooner or later.

With the publishing of the names of those who have been exempted from service it is anticipated that much information will be furnished the draft boards from those acquainted with the facts.

District No. 5 yesterday examined 23 aliens, giving them temporary discharges until October 1, when it is expected Congress will have arrived at a decision regarding their status.

All local boards are now working on exemption claims and three—divisions No. 4, 6 and 7—have practically completed this phase of their work and will be ready to issue their second calls early next week.

The federal district board held its first regular session in San Francisco yesterday. The board discussed several cases, but gave out the general impression that it would not be lenient, either in cases of industrial claims or appealed cases.

Attorney General U. S. Webb has ruled that all civil service employees under the jurisdiction of the State Civil Service Commission may resign their positions for service during the period of the war. Those filling the vacated positions will be obliged to relinquish them upon demand of returning employees. Employees who are incapacitated from holding their original positions will be given other jobs.

MANY ARE CERTIFIED.

The following men have been certified to the district board from Local Board Division No. 6, their claims for exemption having been disallowed:

Frederick Wells, Goddard Schumacher, Charles Parker Webster, Robert A. Mulholland, Blanchard Leland Haskell, Frederick William Gehri, Henry L. DeLaford, Edward Brand and Wendell Jordan LaFrens.

Nineteen men who did not appear for examination in District 6 have been reported to the Federal Department of Justice and have been certified as physically qualified for military service. They are: Frederick Navarro, Ernest M. Wright, Elwyn A. Arnold, William S. Greenberg, Frank Greenaw, Anthony Conte, Clyde Leris Burk, Michael Joseph Weber, Tony Katen, Joseph P. Castro, William Edward Dorffel, John Raymond, Frederick William Denschle, George A. Gannon, Edward G. Webster, Ernest Collings, Malachan Tracy Dobson, Frank Castro and John Tolles.

The following men have been granted discharges in Division No. 6: Alfred Thomas Golding, William W. Lyman, Alvin Leander Myers, Walter

FOURTH CALL ISSUED BY DISTRICT 6

A fourth call has been issued by Local Board Division No. 6 for 133 men to appear next Thursday for physical examination. Ben O. Johnson, a member of the board, stated that he believed that the men called last call would be sufficient to fill the district's quota. Eight hundred and sixty-six men have been called to secure a quota of 240.

Those called on the fourth draft are:

John R. Parsons, Clinton N. Clark, William H. Zumsteg, George J. Lewis, Archie M. Shepherd, Steve Petracchi, Louis L. Leithmann, Theodore R. Klatt, Manuel Pereira, Joseph A. Miller, Frank H. Anderson, Joe Velosa, Manuel Nobrega, Archie Schluter, Habersham King, Jr., Jesse J. Costa, Charles Regaller, Clarence W. Brown, William J. Wallace, Winfield E. Gilleland, Earl S. Wilson Again to Take Up Exemption of Men of Family

WASHINGTON, Aug. 17.—President Wilson today wrote Senator Weeks, Massachusetts, that he will take up again with the War Department the question of exempting married men with families from the selective draft.

The President's letter was in reply to one from Weeks calling attention to great dissatisfaction throughout the country on this point.

POLITICAL ROW OVER MISS RANKIN

BUTTE, Mont., Aug. 17.—Montana politics were in the midst of a storm today furnished by the women.

Many fair ones who supported Miss Rankin, now Congresswoman, were outspoken in declarations that her action in coming here to investigate labor conditions is "merely a national move to annex labor votes."

her announced race against United States Senator Walsh for the Senate.

Miss Rankin was given a figurative hair-pulling on charges that she came here uninvited to investigate labor troubles.

Mine operators declare her presence here is unnecessary and that the situation will automatically resolve itself, the men gradually returning work.

ESCAPES DIVERS

MAYNARD, Mass., Aug. 17.—A steamer carrying American sawmill unit No. 3 to a British port recently was attacked in midocean by two German submarines, according to a letter received last night from a member of the unit. Two torpedoes were fired at the ship, but both missed their mark by a few feet, the steamer escaping by her great speed, the writer said.

TAFT & PENNOYER COMPANY

New Fall Coats

These Are Excellent Values

\$25 \$29.50 \$35

—Beautiful Coats. Materials of soft, rich quality Velour, Duvelyn, Broadcloth, Pompon and mixtures. Lined throughout with Peau de Cygne.

MANY HELD IN "SLACKER DRIVE"

LOS ANGELES, Aug. 17.—Thirty men were taken to the county jail here as the result of a vigorous campaign begun today to round up suspected evaders of the selective draft. Nearly the entire police department of the city and many paid and volunteer workers operating under the direction of federal authorities began stopping on the street every man who appeared to be of military age and called upon him to show his registration card. Regardless of excuses, where the card was not forthcoming the man was taken to the office of United States Marshal C. T. Walton where an effort was made to verify statements as to cards lost or left at home.

More than 200 men were taken to the federal building. Of this number fifteen were held on suspicion of failure to register for the draft, five were held on suspicion of failure to appear before selection boards and the cases of ten others were undetermined late tonight.

POLICE EXEMPT?

NEW YORK, Aug. 17.—Charles E. Hughes, chairman of the district board of appeals, said today that although the board would continue to follow the law regarding exemptions, he favored the adoption of some plan to exempt policemen and medical students from the draft.

PLEAD NOT GUILTY

NEW YORK, Aug. 17.—Dr. Samuel J. Bernfeld and Louis I. Cheerv, members of the local exemption board No. 55, pleaded not guilty to charges of conspiracy to break the selective draft law. Kalman Gruber, who is alleged to have been their "exemption blank agent" entered a similar plea. The three men were ordered arraigned for trial Monday.

FOR CLECK ESTATE.

Payment of \$7000 into the estate of the late John N. Cleck by the National Surety Company was ordered yesterday by Superior Judge Wells. The surety company bonded Alfred Pozzi, administrator of the estate and Pozzi is said to have appropriated the amount to his own uses. Michael Cleck had been named administrator in place of Pozzi.

Twice Around Lake Merritt, Oakland, Calif. Distance 6 1/4 Miles.

ADMISSION DAY, Monday, September 10, 1917, 10 a. m.

Sporting Editor TRIBUNE:

Please enter me in The TRIBUNE'S "Merritt Marathon."

Name Address

Club or School P. A. A. Reg. No.

1. Silver bars for all who finish in time limit of one hour.

Handsome engraved gold watches for first three; silver embossed medal belts for next seven; special medals for first Y. M. C. A. high school and outside counties boys to finish.
3. Gold bars for those who finish within limit for third time.
4. P. A. A. Registration Number must be on every blank and all entrants must submit to medical examination.
5. The race is open to all amateurs.

Entries close Wednesday night, September 5. Send all entries to OAKLAND TRIBUNE.

Those not already registered can communicate with Herbert Hauser, Secretary P. A. A., 4670 San Sebastian avenue, Oakland.

Swimming Records Given Recognition By P. A. A. Managers

Three records this season by Frances Cowells, one by Dorothy Burns, and one by Marion Ross were recognized by the Pacific Athletic association in the meeting of the board of managers last night.

The following records were reported by the records committee and were adopted by the association:

100 yards for women, Dorothy Burns 1 minute 11 seconds made at Neptune Beach, July 21; also the 150 yards record.

ord by Norman Ross, 1 minute 34 seconds, Frances Cowells, at Neptune Beach August 1; 300 yards in 4 minutes 45 seconds, and 700 yards in 8 minutes 25 seconds, and 1000 yards in 11 minutes 22 seconds, the latter being an American tank record as well as P. A. A. John D. Thurman, prominent in rowing circles, was elected a member of the board of managers representing the Dolphin Boating and Swimming clubs. Santa Clara University, which had been dropped for non-payment of dues, was re-

The executive committee granted sanction to the Neptune Club of Stockton for a two-day swim meet to be held in the San Joaquin river at Stockton for September 16. The Irish Volunteers Committee were granted a sanction for an athletic meet at Shell Mound Park for September 16. A sanction for a women's

swimming meet for September 10 was also granted the Fresno Natatorium.

First Baseman Harry Williams, who has been playing with Bloomington of the Three-I league, is back in the Western with St. Joseph. Dave Williams, another first baseman, who has been with Rock Island in the Three-I, but who belongs to the St. Louis Cardinals, has been shifted to Omaha.

12TH

MISSION OF JAPAN ON WAY EAST

Members of the Imperial Japanese Mission are today taking their farewells of California before starting on their journey across the continent to confer with the Government of the United States on matters of international significance. After four days of sight-seeing and banqueting, the diplomats took their departure from San Francisco last night with a Godspeed from Federal, State and municipal officers in an informal reception at the ferry station.

"We have met the real Californian on his native soil," declared Viscount Ishii in his farewell speech. "We have been his guests. We now know that nothing our enemies may do to divide us can succeed."

MUCH APPRECIATED. "What more can I say? Neither your language nor mine supply me with sufficient vocabulary adequately to express my appreciation of the welcome and the farewell of San Francisco. We will always remember it as a characteristic of the hospitality of the Golden State. The genuine sincerity of the greeting you have given me, I can assure you, is reciprocated in the sense of obligation and appreciation felt by the entire Japanese mission."

The members of the Mission yesterday spent a quiet day in a trip across the bay to Mount Tamalpais and Muir Woods. The party was taken to Marin county on a navy tug with military band aboard for entertainment. A special train awaited the visitors at Mill Valley.

Luncheon was served in the Tamalpais Tavern, where Assistant Secretary of State Breckenridge Long was host to the distinguished Japanese. The trip down the mountain was made in a gravity car, with a stop en route for a visit to Muir Woods.

As a token of his appreciation of protection as well as the courtesy and kindness of the members of the police department, Viscount Kikudō Ishii, Japan's special ambassador plenipotentiary to the United States, handed Captain Daniel O'Brien a check for \$200 to be given to the widows and orphans fund of the department.

"Not only has your protection been most effective, but your extreme courtesy and kindness have been of such a nature as to make us all desire in some way to show our appreciation. I am told that you have a charitable organization, and I want you to accept this small gift for that fund."

This was Viscount Ishii's statement as he shook hands with Captain O'Brien, who was acting chief of police during his stay in San Francisco.

Auto Headlights Tested and Many Found Deficient

Under police supervision the automobiles in Oakland are undergoing "physical" tests in compliance with the provisions of the new State motor vehicle act, Section 13, which makes it mandatory that the headlights be of certain brightness and set at certain angle of reflection.

A testing station has been established on the west side of Clay street between Fifteenth and Sixteenth streets under charge of Sergeant J. J. Sherry and assistants.

Last night out of the first fifteen cars tested there was only one found to conform to the law. Certificates are issued to cars that are properly adjusted in order to protect the driver from any further inconvenience in the enforcement of the law, which will be strictly carried out here, Captain J. F. Lynch, acting chief of police, stated.

A heavy plank runway has been constructed at the station. At the far end the headlights are thrown on a black wall on which measurements are fixed. Automobile owners who are in doubt as to the adjustment of their lights may avail themselves of the service of the station without charge, between 7 and 12 p. m.

potentially to the United States, handed Captain Daniel O'Brien a check for \$200 to be given to the widows and orphans fund of the department.

SHIP PLANT TURNED AWAY FROM CITY

One of the latest shipbuilding concerns in the United States, which was to locate a plant on Brooklyn Basin, which would disburse \$200,000 a month, has been prevented from doing so and will probably go elsewhere on the bay because of the continued litigation involving waterfront leases, according to announcement made yesterday to the Oakland Real Estate Board.

During the past two years a score of enterprises of such magnitude as to be most desirable additions to the city's industrial payrolls and many smaller concerns have been lost to the community because of this litigation growing out of an effort on the part of the City of Oakland to invalidate the leases granted in 1911 to the Larue, Wharf and Warehouse Company and twelve other concerns and individuals.

DECISION GIVEN. On July 26 Superior Judge Everett Brown handed down a decision in favor of the Larue Company, defendants in the test suit which has been under trial for some months. City officials stated at the time that an appeal would be taken, but no such step has as yet been taken.

In an effort to hasten such proceedings, if they are to be taken, and clear up the situation as quickly as possible, the following communication has been addressed to the Oakland City Council by the Real Estate Board:

"Believing that the best interests of this community will be served by a prompt settlement of the dispute between the City of Oakland and the holders of leases to waterfront property on Brooklyn Basin, the members of the Oakland Real Estate Board do hereby most earnestly urge the members of the City Council of Oakland to take without delay such steps as may be necessary to accomplish this end."

TURNED AWAY. "Industries and commercial enterprises of such character as to be of great and important benefit to our community have in large numbers been turned away from this city and their payrolls and commercial activities and benefits lost to Oakland because of the fact that, under conditions which now exist and have existed since the validity of these leases was attacked, neither the City of Oakland nor the lessees are able to deliver satisfactory title to the property."

"The Oakland Real Estate Board is less concerned with the success or failure of either of the contending parties to this dispute than it is in the active rather than potential usefulness of the property involved, holding that the actual ownership or legal control of the lands is of far less importance to the community than the industrial and commercial benefits which would accrue were the property promptly put to the many uses to which it is so admirably adapted and for which it is being continually sought."

"It is understood by the members of this board that it is the intention of the City of Oakland to appeal from the decision recently rendered by Superior Judge Brown in favor of the defendants in the test case brought in this controversy. If this be true, this board urgently requests that this appeal be taken at once and that the City of Oakland join with the defendants in this case in using every means possible to secure an early decision from the higher court so that, at the earliest possible moment, one or the other of the contending parties may be authorized to negotiate with those who are almost daily seeking to locate on these lands institutions which will be of material and lasting benefit to this community."

FOR PAPER MONEY. LISBON, Aug. 16.—The Official Journal announces that all silver and copper money will be withdrawn from circulation and it will be replaced by paper currency.

DRIVE ON HIGH SCHOOL FRAT IS ON

That a drive on high school fraternities, declared to have been organized in the high schools of Oakland, Berkeley and Alameda, and to be operating quietly, is to be made by the principals of the various schools, is indicated by the action in several institutions, where close inquiries are under way. Special insistence is placed on students signing statements that they are not, or that they will not, be members of any such organizations.

The matter has not been taken before the boards of education yet, but so far has been confined to a concerted action by the principals, who in some cases, have conferred and exchanged data on the situation.

AT UNIVERSITY HIGH. In the University high school in Oakland an institution in which University of California students are given actual teaching experience and which is operated under university control, it is declared that the move has been vigorously pressed. Practically every student has been questioned regarding the existence of fraternities and many old students are being asked to sign statements, lest they have joined organizations barred by state law since entering the school.

BOB UP AGAIN. According to the information at hand several fraternities, once disbanded, have again come to the fore. In many cases they operate ostensibly as organizations of students who have left school, and the teachers fear some of the students in the schools are either pledged or members. In Alameda the Sigma Psi Upsilon is declared to be in existence, in Oakland the Gamma Eta Kappa, the Phi Lambda Epsilon, and in Berkeley the Pi Delta Kappa, Theta Chi and several others.

Many of the University of California fraternities have offered to bar any high school fraternity member from their rolls, but this has never been put into force, but, on the contrary, many high school seniors have been pledged in the past by college organizations. This, however, while discouraged by university and high school authorities, is not illegal, as are the high school organizations.

Principals refuse to discuss the situation, but several high school boys declared that they have been closely questioned and several also admit that fraternities are in existence and that it is understood that boys actually within the schools are secret members.

OPIUM IS SEIZED. LOS ANGELES, Aug. 17.—Opium said to be valued at between \$80,000 and \$85,000 was seized early today at a prominent Los Angeles hotel by federal officers. It had been shipped by express in four trunks, 600 five-ounce cans of the prime quality known as Li Yuan. The owner or owners of the drug failed to appear.

The local capture was but a portion of the great shipment. Federal agents report seizures at Kansas City, El Paso and San Antonio.

Ask The TRIBUNE

Begins Drive on City Hall Front Field Marshal Davie's Strategy

SOMEWHERE ON THE CITY HALL BATTLEFRONT (delayed by the censor, Aug. 13 (note the number)).—A strategic move was attempted on the forces under Field Marshal Davie today in the Civil Service Commission sector, but the full effect of the move cannot yet be determined. Political experts declare that the line of trenches now held by the Civil Service Commission, though occupied at one point by a detachment under Major-General Kaufman, is very much desired by Field Marshal Davie of the attacking forces. It is pointed out that with this line of trenches in his possession he would dominate the forces of the old administration and would compel a retreat all along the line.

KAUFMAN HOLDS ON. Major-General Kaufman is holding doggedly to his position and is able to greatly harass the enemy, but with the possession of the entire Civil Service sector a general advance would be possible along the entire City Hall front.

WILL SPEAK ON BOOSTING PLANS

Bearing important data gleaned from chambers of commerce in the East and Middle West as to the latest methods of city boosting and city building through community effort, A. Vander Naillen Jr. has returned to Oakland after a absence of some five weeks during which he represented this city in a dual capacity as a representative of the Oakland Chamber of Commerce and as a delegate to the twenty-ninth annual convention of the Order of Moose in Pittsburgh. His tour included New York, Washington, Pittsburgh, Baltimore, Albany, Montreal, Toronto, Chicago, St. Louis and Kansas City.

Hints as to what Oakland can do in the way of obtaining conventions and building membership in community service will be given by Vander Naillen in the near future at a noon luncheon of the Chamber of Commerce. He will also tell some facts of which Oaklanders can be proud as to the growth and fame of this city throughout the country.

Next Friday evening Vander Naillen will make his official report to the Oakland Lodge of Moose on the convention and his visit to Mooseburg, one of the world's greatest educational institutions. While in Pittsburgh, he was tendered a dinner by several of the supreme council officials in honor of his having won the first prize in a contest for the best paper on the subject, "Why I Am a Moose," his manuscript having been chosen from 25,000 submitted.

TO TURK CAPITAL. BERLIN, Aug. 17.—The appointment of Count von Bernstorff, former German ambassador to the United States, as German ambassador at Constantinople is forecast. Count von Bernstorff arrived in Berlin today and has been in conference with Imperial Chancellor Michaelis.

AMSTERDAM, Aug. 17.—Count Tarnowski von Tarnow, the former Austro-Hungarian ambassador to the United States, a report received from Stockholm says, will soon become minister to Sweden from Austria-Hungary.

MERRITT IS FOOD CHIEF FOR STATE

Ralph P. Merritt, for many years commissioner of the University of California, was appointed today State Food Commissioner for the State of California, by President Wilson, pursuant to the terms of the food control bill, which makes provision for such appointments. He will form a part of Herbert C. Hoover's food control system.

Merritt was one of twenty-eight food commissioners appointed from many States. Other appointments to cover the balance of the United States are before the President and the Food Administration awaiting official approval. The commissioners will hold office without salary and will work in co-operation with the administration in the control of foodstuffs, the regulation of markets and the conservation of productive interests.

The principal work of the commissioners will be in the marketing and distribution of agricultural and productive activities of various State interests. The food control bill passed by Congress, which goes into effect on September 1, equips the various commissioners with considerable direct and great implied powers. Rulings of the commissioners upon market and distribution matters will be conducted within legal limits, the Government taking preemptory action only when the occasion demands.
